Waters Group - Liskeard Business Park,
Liskeard, Cornwall PL14 3US

**Serving the stone
industry since 1987**

Waters Group is a family owned and run business that supplies quality tooling, equipment and consumables throughout the UK and Ireland.

With over 35 years of experience we have long established links with market leading manufacturers. We offer a progressive and comprehensive range of premium products.

Our dedicated sales team are available to give advice and guidance on all of our products, they provide the highest level of customer service and ensure the customer's individual tooling needs are met.

Key

Wet Use

Re-sharpen often

Level base required

Clean surface before use

Dispensing gun required

What are Ultra Compact Surfaces?

Ultra Compact Surfaces (UCS) is a new type of material in the stone industry. It is created by mixing, compacting and fusing fragments of glass, porcelain and quartz under extreme heat and pressure. This process creates an incredibly hard, durable and luxurious surface! Some popular brands of Ultra Compact surfaces are Dekton®, Neolith® and Lapitec®.

Working With UCS - TOP TIPS

Re-sharpen all tools regularly to keep the diamonds exposed and get the cleanest cuts.

Ensure adequate cooling is applied to all applicable tools

Wear the appropriate PPE at all times

Adhesives & Silicone

Integra Adhesives

STYRENE FREE!

Integra Adhesive - Rapid

Available in 250ml - **Colour Matched Adhesive** -

Surface Bonder Rapid is a **NEW** fast curing, high strength seaming adhesive. It has been developed to cure in half the time to increase output for high volume fabrication.

Working Time

4 - 8 Minutes

Application

Cartridge

Integra Adhesives

STYRENE FREE!

Integra Adhesive - Zero

Available in 250ml - **Colour Matched Adhesive** -

Surface Bonder Zero is a non sagging adhesive specifically designed for Quartz, Compact Sintered Materials and Natural Stone products. Its non-sag properties make it ideal for mitered edges.

Working Time

10 - 20 Minutes

Application

Cartridge

Integra Adhesives

Integra Adhesive - Construction Bonder

Available in 400ml

Component Bonder is a dripless, quick drying, acrylic structural adhesive that bonds steel, aluminum, and fiberglass to all solid surfaces. Perfect for rodding and bonding clips.

Working Time

6 - 8 Minutes

Application

Cartridge

AKEMI®

Akemi - Everclear 300

Available in 400ml - **Colour Matched Adhesive** -

UV Resistant

2-component PUR-adhesive in cartridges, almost no yellowing, VOC-free and a range of colours. For durable bonding's of large-size ceramic surfaces (e.g. Dekton®, Lapitec®, Neolith®, Laminam®) or hard stone **outdoors and indoors**.

Working Time

15 - 20 Minutes

Application

Cartridge

AKEMI®

Akemi - Platinum P+

Available in 1000ml

Platinum Knife-grade, transparent-opaque adhesive (very light basic colour), based on epoxy acrylate, high bonding power, very fast surface drying and processability. Foodsafe (certified by an external German testing institute)

Working Time

15 - 20 Minutes

Application

Hand mixed

Adhesives & Silicone

Integra Adhesive - TopSeal

Available in 290ml

TopSeal is a new colour matched adhesive and sealant for backsplashes, upstands and many more. It is the latest generation, high performance toughened polymer technology. TopSeal's excellent bond strength gives instant grip without support.

Colour Range
10 + Colours

Application
Cartridge

Integra Adhesives

Illbruck - Natural Stone Silicone

Available in 290ml

Formulated for the long term elastic sealing of joints between natural stone such as Granite, Quartz, Porcelain, Ultra Compact Surfaces such as Dekton®, Neolith®, Lapitec®, & Laminam®

Available in a **matt** range for Ultra Compact Surfaces with a **Satin finish**

Colour Range
20 + Colours

Application
Cartridge

illbruck
making it perfect.

Akemi - Stone Silicone

Available in 310ml

One component joint sealer with no discoloration!
Used to connect joints on Natural and artificial stone along with Ultra Compact Surfaces

Colour Range
20 + Colours

Application
Cartridge

AKEMI

Dont forget your accessories!

Integra Dispensing Gun

Adhesive dispensing gun designed to raise the bar for the industry when it comes to 10:1 dispensing options Perfect for Integra Adhesive 250ml Tubes!

Integra Adhesive Nozzles

The X-Stream Mixing Tip features a bayonet fitting, so you don't need to worry about saving a retaining nut for holding your tip in place. Automatic mixing inside the nozzle while dispensing!

Steel Skeleton Gun

Roughneck Skeleton Caulking Gun that is lightweight and economical.

Blades - Bridge Saws

KONIG

Konig - UCS Speed Blade

Available in 400mm

New blade for cutting of all ceramic materials and stoneware. Brand new segment technology for higher feed speed in ceramics. High speed blade for straight & mitre cutting all Ultra Compact Surfaces. Reinforced core for extra stability and reduced noise.

RPM

1,800 - 2,200

Feed Speed

1 - 3 Metres per minute

KONIG

Konig - K5 Blade

Available in 350mm to 450mm

The KONIG K5 Bridge Saw Blade is the latest generation of ceramic cutting discs. The K5 Blade makes it possible to cut ultra compact surfaces, sintered stone, porcelain and ceramics with superior results without the need to re-sharpen.

RPM

2,000 - 2,200

Feed Speed

1 - 2 Metres per minute

KONIG

Konig - UCS Blade

Available in 350mm to 450mm

Diarex UCS Diamond Premium Quality Blade for high quality cutting Sintered Stone Surfaces such as Neolith®, Dekton® and other kinds of ceramic material. Includes a softer bond for lower horsepower machines.

RPM

1,450 - 1,900

Feed Speed

0.3 - 1 Metre per minute

ADW Diamond Solutions

ADW - iKon Blade

Available in 400mm

The ADW iKon Silent Blades are made in Spain and specifically designed for use on Dekton® and other ultra hard compact materials. The iKon Blade is certified and approved for use on Dekton®, and offers superior life and clean cutting.

RPM

1,900 - 2,100

Feed Speed

0.6 - 1 Metre per minute

DIAFLX

Diaflx - KeramiCUT

Available in 400mm

The KeramiCUT V Pro was made to perfectly cut hard materials such as Dekton®, Neolith® and Lapitec®. Chip free, high cutting speed and can be used for mitre cuts.

RPM

1,800 - 2,100

Feed Speed

1 Metre per minute

Need specific location holes to fit your machine? Call us now!

Blades - Manual Cutting

Waters Group - Gladiator Blade

Available in 125mm to 230mm

Waters Group, thin turbo dry cut Ultra Compact Surface blade is perfect for hard materials! Fast and clean cutting due to its 1.4mm thickness! Advanced core for reduced noise levels!

RPM
7,200

Fitting
22.2mm bore

GLADIATOR

Waters Group - Vacuum Brazed Blade

Available in 125mm

Double sided diamond cutting and grinding blade. Used for edges, smoothing sinkhole cutouts. High quality diamonds ensure a better cutting speed.

RPM
7,200

Fitting
M14

WATERS

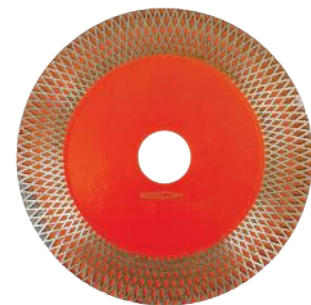

Waters Group - Cutting & Grinding Blade

Available in 125mm

The perfect blade for both cutting & grinding on Ultra Compact Surface materials such as Porcelain, Ceramic and Tiles
Cut effortlessly - a perfect addition to your workshop!

RPM
12,200

Fitting
22.2mm bore

WATERS

Waters Group - Hex Blade

Available in 115mm & 125mm

Perfect for cutting porcelain and ceramic tiles at 45 Degree angles.
The Hex pattern makes cutting quick and efficient.
(Cutting and some grinding) (Can be used for 45 degree angle cuts)

RPM
7,200

Fitting
22.2mm bore

WATERS

KGS - K840 Fine Cut Blade

Available in 125mm

Continuous edge blade with very narrow space between segments.
Ultra-narrow cut of 1.1 mm without breaking the material.

Best for: ceramic, porcelain and quartz.

CERTIFIED by Cosentino for use on Dekton®!

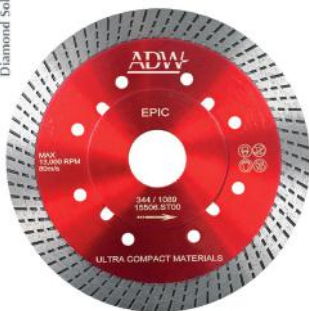

RPM
12,200

Fitting
22.2mm bore

KGS

Blades - Manual Cutting

ADW - Epic Blade

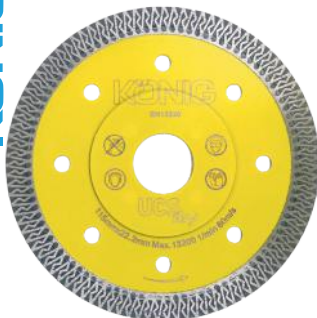

Available in 115mm & 125mm

The ADW Ultra Compact Surface Blade makes light work of dense surfaces because its super thin it makes it the ideal blade to use on Dekton®, Neolith® and other compact surfaces.

CERTIFIED by Cosentino for use on Dekton®!

RPM
13,000

Fitting
22.2mm bore & M14

Konig - UCS Dry Blade

Available in 115mm & 125mm

The dry cutting disc for Ultra Compact Surfaces such as Dekton® and Neolith® and also other types of ceramics. Can be used for precision cuts in natural stone. Reinforced core

RPM
10,000

Fitting
22.2mm bore

Konig - White UCS Blade

Available in 115mm & 125mm

Cutting disc for freehand cutting dry with high-speed angle grinders. Ideal for re-cutting glass or ceramic tiles on the construction site. With reinforced core in the flange area

RPM
10,000

Fitting
22.2mm bore

KGS - RED K835

Available in 115mm & 125mm

KGS Red K835 Diamond Cutting Blade for hard stone, soft stone, ceramic, and engineered stone. Used in the kitchen counter top industry on ceramic materials.

RPM
12,200

Fitting
22.2mm bore & M14

Chemicals & Care Kits

Integra Adhesive - Ceramic Care Kit

Hard Surface Cleaner | Stone Paste | Magic Eraser

The Integra Ceramic Care Kit focuses on difficult to remove marks usually generated from the build up of dirt/limescale. Use the surface cleaner on a daily basis to maintain a mirror like shine.

Surface cleaner for everyday cleaning 🏠

Matt paste 🏠

Magic eraser for stubborn spots 🏠

Integra Adhesives

Waters Group - Wonder Tops Polish

Available in Trigger or Aerosol

Restores your worktop to a showroom-shiny finish.

Cleans and protects the surface, safe to use with food preparation.

Suitable for granite, marble, stone and stainless steel & Ultra Compact Surfaces .

Very cost effective 🏠

Perfect for the end user 🏠

WATERS

Bellinzoni - Ceramic Polishing Gel

Available in 1kg

Eureka" is the new gel for polishing surfaces of various materials in a simple and fast way, using a buffing machine or a grinder.

Bring back the gloss in your porcelain and ceramic!

Easily applied by machine 🏠

Application foam available from stock 🏠

Bellinzoni

Akemi - Crystal Clean

Available in 1000ml

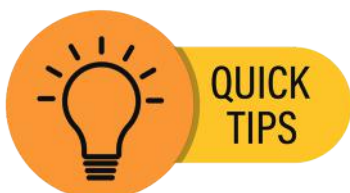

For the daily removal of slight dirt like for example slight films of oil and grease, road dirt on polished natural and artificial stone as well as on fine stone ware, ceramics, quartz or similar.

Very versatile 🏠

Can be diluted 🏠

AKEMI

Test all chemicals on a sample prior to applying

Always wear PPE when dealing with chemicals

Always read instruction sheets before use

Lifting & Handling

Aardwolf Slab Lifter

The patented Aardwolf grab is an accessory for lifting and moving panels. The spring-loaded latch is integrated, which opens automatically as soon as the plate has been lowered completely to the ground. This means that the process of lifting and lowering can be carried out by one person.

Righetti Vacuum Lifter

The P12A350 Vacuum Lifter is designed especially for handling large porcelain stoneware slabs. Porcelain slabs can often be 3 Metres in size so need specialist lifting and handling equipment. See our wide range on the website!

Large Format Tile Carry System

Designed for handling large format, thin Porcelain tiles. It allows the user to move The tile slabs in both horizontal and vertical positions. For proper fixing of the system, you must ensure that the tile surface is cleaned of dust and other debris.

Contact our sales team today for a quote!

Lifting & Handling

Hand Suction Cups

These powerful suction cups provide increased grip through the use of a tension lever. Push the levers down to create a strong and steady grip. A must for tile installation!

Aardwolf Hand Clamps

The Aardwolf carry clamp for sheet materials is used in pairs, allowing you to safely lift and carry panels with a comfortable posture. The design uses the weight of the stone to provide the clamping force. Rubber lining jaws prevent the surface of the material from being damaged.

Popular Brands!

Aardwolf manufactures a range of Heavy Lifting, Transporting, and Storing Equipment For Stone Slabs. We stock a large selection of Aardwolf products so be sure to give our team a call today!

J. König GmbH is now a fourth-generation family business in Germany. Targeting natural stone processors, stonemasons, sculptors, restorers, tilers, and more! They offer a vast range of Lifting & Handling equipment, Get in touch to learn more!

Righetti Vacuum Lifters have developed specific solutions for ceramic and porcelain stoneware slabs. Their vacuum lifters are easy to use, easy to maintain and very reliable.

Seam Setting

Gorilla Grip 2.1 Camless

NEW & IMPROVED GORILLA GRIP 2.1

The evolution continues, the new 2.1 Seam Setter is one of the most powerful out there. This self contained unit is ready for the shop or the job site. In each kit you receive the **electric vacuum pump** and **two sets of seam pods**. The Gorilla Grip provides **fast and powerful clamping** of stone surfaces. Four adjustment knobs per set allow for precise leveling, even on bowed slabs. No need to worry about loss of suction with this Seam Setter.

- 👑 Self contained in a **portable carry case**.
- 👑 **Replacement parts available** from stock to keep your machine maintained.

Exclusive to Waters Group - Call 0800 999 47 58

Gorilla Grip - Water Fall Clamp

Designed to clamp full length waterfall pieces that go all the way to the floor when attached to a standard Gorilla Grip Vacuum System and standard spring clamps. Includes two 20" long stainless steel "T" shaped metal clamp accessories for producing 90 degree waterfalls.

ADI produce high quality diamond CNC tools for all types of materials including Ultra Compact Surfaces like Dekton®. There are many profiles available in different shapes and sizes!

Below is a list of profiles that can be used on Ultra Compact Surfaces. *Our profile range is constantly being developed so please call us for the up to date profile range!*

Types of ADI Profiles

Long lasting and superior finish.
The set is composed of 4 UHS (Ultra High Speed) metal bond wheels and 2 express polishers to give the best results.

FastLine allows you to profile and polish either internally or on the outer edge of the countertop. They are long lasting and high speed. The set is composed of 4 UHS (Ultra High Speed) metal bond wheels and 2 express polishers

Maximum precision to profile and polish small radius, such as the internal sink cutouts. This particular design of the 2 segments UHS (Ultra High Speed), allows high performance. The set is composed of 4 UHS metal and 2 express polishers.

ADI NanoLine is perfect for smaller radius jobs. It allows you to profile and polish while keeping the high quality standard from ADI.

Hand Polishing

DOTPads
Polishing System

Waters Group - DotPads

Available in 100mm

Dot pads are perfect for removing the print and texture from the underside of Dekton® and similar materials. Aggressive 50# Metal bond to start the process.
