Questionnaire and Family Culture
Survey

\$6.00 ~~\$9.99~~

A sociological approach to include working with the individual's family and community to reinforce learning across the home, community, and school is vital to cultural-linguistic practice (Soto & Yu, 2014). Included in this packet is the Parent Questionnaire and Family Culture Survey written in Spanish and English. Both ask specific questions to help gather a truly unique vocabulary inventory for your client and insight to the family's heritage. The Family Culture Survey is adapted from M.B. Huer (1997), following California Education Code's legal requirements to direct schools to assess English language proficiency.

The AAC Assessment Hub is a comprehensive, practical training program designed to take you from referral to funding approval with confidence and ease. This program removes the guesswork and delivers a clear process with additional resources so you'll always be up to date on the latest in AAC.

Inside, you'll learn how to...

- Conduct a structured AAC assessment with clarity & confidence.
- Trial multiple AAC systems and collect meaningful data.
- Make informed feature-matching decisions.
- Write clear, persuasive reports for funding approval.
- Streamline the entire process without unnecessary stress.
