Your Love Story

Every Love Story Deserves to Be Seen—Let's Tell Yours

No two love stories are the same, and your wedding should reflect exactly who you are. That's why we take the time to truly get to know you, your quirks, your dreams, the little details that matter most. Because when you feel seen, your photos will tell the real story—your story.

At Curves and Lace, we are ALL about capturing the moments that feel most like you: the nervous giggles, the teary-eyed vows, the way you squeeze each other's hands when no one's watching. It's about the in-between moments as much as the big ones—raw, real, and beautiful.

Our style is natural, emotive, and true to life. We're not here to pose you into something you're not—we're here to highlight the genuine connection you share. The kind of images that make your heart skip a beat years down the track because they still feel like that day.

From quiet moments of reflection to full-throttle joy on the dance floor, we'll be there, documenting the love, the laughter, and the beautiful chaos in between.

Why Choose Us??

✨ Because your love deserves to be remembered exactly as it felt.

Wedding planning can feel like a blur—but choosing your photographer is one of the most important decisions you'll make. When the day is over and the whirlwind settles, it's your photos that will bring the magic back. The quiet glances. The happy tears. The moment you looked at each other and realised—you're married.

That's the kind of love story we're here to tell.

We See You, Not Just a Shot List

You're not just another couple to us. We take the time to understand who you are, what lights you up, and what kind of wedding feels most like you. That connection means your photos won't feel stiff or staged—they'll feel real. Comfortable. Authentically yours.

Whether you're goofy and playful, romantic and shy, or full-on chaotic lovebirds, we'll meet you there and celebrate every bit of it.

Want to See the Full Picture? We're proud of our work and happy to share full wedding galleries. That way, you can see exactly how we tell a wedding story from beginning to end, with consistency, attention to detail, and real emotion in every frame.

Over 10 Years of Experience, and It Shows. With over a decade of wedding photography under our belt (and years of mentoring others in the industry), we know how to stay cool under pressure and adapt to any setting, timeline, or weather curveball. From intimate elopements to wild dance floors—we've done it all.

We're here for you every step of the way—with clear communication, fast replies, and thoughtful guidance so you never feel lost or overwhelmed.

Your memories are safe with us. Your love is seen. Your wedding day will be captured with heart and care—so that when you look back, you'll feel it all over again.

✨ You are art. Let us show you.

Eloping at the Registry??

A Registry Office wedding is one of the most underrated ways to get married in Melbourne, the gorgeous historic building is located near stunning gardens and the paris end of the city is just across the road. This is why we absolutely love them.

There's something powerful about stripping away the fuss and choosing a moment that's purely about your commitment, your connection, and the life you're building together. No pressure, no giant timelines — just the two of you (and maybe a few of your favourite humans) stepping into marriage with heart and intention.

And that's where we shine.

We specialise in capturing intimate, emotional moments for couples who want their wedding to feel authentic, meaningful, and completely stress-free. As a team that celebrates love in all it's beautiful forms, we know how to honour your story exactly as it is — without awkward posing or forced "Pinterest moments."

Registry weddings move quickly, but we don't miss a thing. We anticipate every glance, every happy tear, every moment you realise, "We just did it." We help with outfits, calm the nerves, bring umbrellas if needed, champagne if asked, we even have gorgeous, modern loan bouquets included.

Whether it's ten minutes in the chamber or a wander around the city and the gardens afterwards, your love is art — and your registry wedding deserves to be captured with the same care, creativity, and emotion as any grand celebration.

Let's make those small moments unforgettable.

Sample Timeline

A GUIDE TO A SMOOTH FLOW TO YOUR SPECIAL DAY.

Memorable weddings don't just happen. They take a bit of organization. To ensure a smooth flow of beautifully captured memories of your day, make a timeline of wedding events to help guide your planning.

GETTING READY: THE BRIDE & GROOM
1.5 to 2.0 hours

Plan for some additional time for photos of all the details, and an extra hour if you're planning a "first look".

THE WEDDING CEREMONY
15 minutes to 1.5 hours

The length of your ceremony may vary widely. Afterward, allow more time for formal portraits (if planned) to allow your guests to leave the church or venue.

FORMAL GROUP & FAMILY PORTRAITS
30 minutes to 1.0 hour

Formal portrait timing can vary widely depending on family/group size and family/group combinations. This is one of the reasons we use two photographers, so that this is quick and easy

WEDDING PARTY & THE NEWLYWEDS
1.0 to 3.0 hours

Timing can depend largely on the venue, size of the bridal party and variety of locations you choose as well as the distance between them.

YOUR RECEPTION
2.0 to 6.0 hours

Your first dance, cutting the cake, dancing guests, friends and family all sharing your joy.

Remember. Your wedding day is unique, and planning together ensures you don't miss a minute of this special time in your lives.

Rock your frock!

Once called "Trash the Dress," these sessions have evolved—because your gown deserves to shine (not necessarily be trashed… unless you're into that!).

Maybe you dreamed of mountain photos but tied the knot by the sea. Maybe the weather wasn't kind. Or maybe you just want to slip back into that gorgeous dress and feel like a total goddess. Whatever the reason, this is your moment.

These sessions are all about fun, freedom, and celebrating you. Come solo or bring your love. We'll pamper you with pro hair and makeup, a grazing box, and your fave bubbly, and create art you'll be proud to hang on your walls.

Perfect for anniversaries, thank you cards, or just because… and if it rained on your wedding day with us? We'll gift you one. Because magic deserves a second chance. ✨

Words of Love

Carol's team were incredible to have out our wedding, they didn't just turn up on the day, do their thing and leave. They were so much more than just the photolgraphy and videographer for us. We knew we were in good hands after they photographed my daughters wedding in 2021.

We got regular emails with hints and ideas for amazing photos, they came to check out our venue and made some suggestions that really helped the ceremony run smoothly AND give us perfect memories, and when things ran a little late, they were happy to stay to get our most treasured dance memories. They even brought extra umbrellas and champagne for us!

We had our gallery delivered so fast, and every single photo made us go WOW!

Jackie and Peter, March 2023

Why two photographers?

It's one of the first things couples ask us—and it's a great question!

Because we tailor every package to suit your day, we've worked with all kinds of set ups, from one photographer to three photographers and a full video crew. But more often than not, we include two photographers—and here's why.

Weddings move fast, and space can be tight, especially in popular ceremony spots. With just one photographer, there's a real risk of missing meaningful moments or needing to dart back and forth to capture different angles. That can become very distracting, not just for your guests, but for you in the middle of your vows. And your ceremony should feel like yours, not a photo shoot.

With two of us, we can stay in place, capture everything from multiple perspectives, and stay unobtrusive. You get double the coverage, more genuine moments, and less time spent posing. Especially with big families or larger guest lists, having two photographers also means group photos are quicker, smoother, and much more enjoyable, leaving you with more time to actually celebrate.

Our job is to give you the most beautiful, heartfelt memories of your day, and having two photographers helps us do just that.

Of course, if you're planning something small and intimate, or you'd prefer a single photographer, we're absolutely happy to quote you for that too. It's all about what works best for you.

Love Notes

NICHOLAS AND SAGE

Intimate and friendly, that's what Nicholas and Sage wanted for their family and close friends wedding ceremony, and boutique Bianchet Winery in the Yarra valley was perfect.

The beautiful undercover ceremony area created a stunning outlook as Sage's grandfather led them through their vows, their Disneyland inspired (Alice in Wonderland in particular) ceremony was all that they wished for and more.

Nature provided the perfect sunset for their photos at Lilydale Lake, and then the delightful Little Vineyard, just up the road from their ceremony gave their beautiful intimate reception a home.

FROM THE COUPLE

"Carol and Chris were so on the ball for capturing exactly the memories we wanted without being in the way at all. They worked so well as a team, and didn't miss a single moment of our wedding. I couldn't believe some of the beautiful photos when I saw them, as I didn't even see them taking photos during our ceremony, they absolutely had an eye for what would look perfect and bring back the emotions of our day.

Our family and friends were so amazed at how organised they were, getting family photos over quickly, while still photographing all the different groups on our list, so that we could relax and enjoy our day even more. I have recommended them to everyone I know, and two of my friends have already booked them.

Hair and Makeup Services

My name is Teighan and I absolutely love elopements because of the intimacy between you and your loved one. Elopement's are my favourite because I get to work alongside you on your special day and my artwork can be solely focused on you. The best part is the locations! Elopements give you the best opportunity to find such amazing and secluded locations and I love that I can be apart of that because who doesn't like adventures?

I have been in the industry for 5+ years as a qualified hair and makeup artist. I had a passion for hairdressing growing up and that's where everything started. I am also a qualified hairdresser which I can also give advice on if you ever needed.

I'm much more than an average hair and makeup artist, I am your keep calm person, I am your If you need something I got you. I am your can you tie my dress or my shoes up person. So you're not just getting the art you're getting the help too!

The First Look

Your wedding day is filled with joy, but it can also come with nerves—and that's completely normal. Sometimes the pressure of it all can sneak in and make it harder to be fully present during your ceremony.

One beautiful way to calm the butterflies (and still keep all the excitement!) is with a First Look. It's a quiet moment, just the two of you, away from the crowd. We'll help find a beautiful spot close to your ceremony, then step well back to give you the space to take each other in—just you, your love, and that feeling of "we're really doing this."

First Looks are tender, emotional, and deeply grounding. It's a chance to reconnect, breathe, and soak up the magic before the whirlwind begins.

Some people still think it goes against tradition—but here's the thing: traditions evolve. Dove grey used to be the "traditional" wedding dress colour! Your day should reflect you, not a rulebook.

In a world full of noise, this is a chance to be still together—to hold hands, cry happy tears, and start your wedding day with intention, joy, and love.
