ABOUT US

Crafting Wellness Through Light & Fragrance

ADORIA WELLNESS HUB is a premium candle and gifting solutions brand born from a simple belief — that a candle is more than just wax and a wick. It is an experience, a ritual, a moment of pause in a busy world.

We create scented, therapeutic, decorative, and natural beeswax candles with elegant design and wellness-inspired experiences. From corporate gifting to weddings, spas, and special events — every candle is crafted with care, quality, and intention.

Our focus is on creating products that combine beauty, fragrance, and wellness. We cater to both domestic and export markets and welcome bulk orders.

Every ADORIA candle is a promise — of purity, craftsmanship, and intention. We source only the finest soy wax, beeswax blends, and therapeutic-grade essential oils, ensuring that what you breathe in is as clean as it is beautiful. Our candles are hand-poured in small batches, tested for perfect burn and fragrance throw, and finished with elegant, customizable packaging that makes them ideal for gifting.

We believe that wellness should be accessible, and that small rituals can create profound shifts in how we feel. Whether you're lighting a candle for a quiet evening of self-care, celebrating a milestone, or gifting warmth to someone you love — ADORIA is here to make that moment matter.

Our commitment extends beyond the product. We are dedicated to sustainable practices, thoughtful design, and creating a community
