

RISEN DIVISION

"IN JUMPSUITS WE TRUST"

2025 RESORT/SPRING LINESHEET

WE ARE RISEN DIVISION

Named after the mathematical concept of the 2nd power, a quadratic equation that multiplies the standard form + the idea of “division of labor” and how jumpsuits have classically defined, segregated, and marginalized parts of society. How do we take these silos and amplify them? We raise them to a higher power, magnify and so RISEN DIVISION materialized. We also love that RD means research and development, which is the true nature of how we move throughout the world. A personal laboratory.

Take yourself to the highest power.

UNIFORM TO MULTIFORM

A single garment that transforms as your day unfold. Where the past is a link to the future..

THE POLYMATH

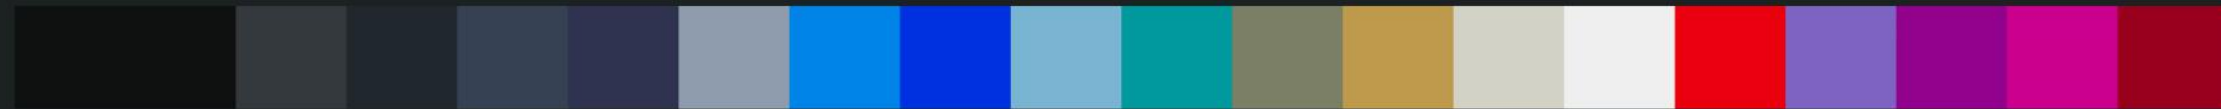

For the present day multitasker with each jumpsuit pays
homage to the trailblazers of the past

MADE IN NEW YORK

RISEN DIVISION stands for sustainable fashion & functional elegance.

THE LAMARR

Named after the glamorous polymath Hedy Lamarr, this jumpsuit is as versatile as the leading lady and historic inventor herself. Lamarr's fame first stemmed from numerous roles as filmic femme fatales, and she spent her off-screen time teaching herself the skills to develop groundbreaking technology. During World War II, she helped invent a radio guidance system for Allied torpedoes: a signal transmission called "frequency-hopping spread spectrum" (the principles of which have been incorporated into wireless technology today!). So, whether you're on set, in the lab, or out gleaning inspiration for your next big idea, you can count on the LAMARR as a chic and functional option.
