LETTER FROM THE FOUNDER

A Note from Nadia.

Hi, I'm Nadia Rodriguez, CPA, CTC, and I'm so glad you're here. After nearly 20 years in the tax profession, I've found that what fuels me most is teaching. I've handled messy books, fixed S election mistakes, and helped clients navigate tax decisions they didn't even know they made. Through it all, I've learned that clarity, confidence, and community are what turn tax preparers into trusted advisors.

That's exactly why I created the S Corporation Advanced Training. This isn't just about forms and rules. It's about changing the way you approach your work. Whether you're new to business entity returns or ready to deepen your expertise, this 10-week course will take you from the fundamentals into advanced strategy with real-life examples and practical insights.

I designed this course to help you serve with purpose, lead with knowledge, and grow with confidence.

Let's get started. Your next level begins now.
