Funds Management Suite

Master Your Housing Funds and Grants with Precision and Control

Federal, state, local, agency, and other funding sources all have different requirements. HDS Funds Management provides your agency with a unified system to manage funding, monitor performance, and improve visibility into program outcomes.

- Comprehensive Fund Management
- Powerful Tracking and Reporting
- Enhanced Management Tools
- Security and Audit

One System for Federal and Non-Federal Funds

- Funding source and year
- Program and subprogram
- Set-aside and category
- Subgrantee
- Project and activity
- Award, commitment, disbursement, and remaining balance
- Program income and other agency-managed funds

HDS Funds Management supports funding programs across all levels of government, providing one platform to manage diverse housing and community development initiatives.

Integrates with HUD IDIS to reduce duplicate data entry and improve data consistency.

Everything You Need to Manage Funds Smarter with FMS

01 Allocate and Sub-Allocate

Direct funding by source, year, program, set-aside, category, and subgrantee.

02 Manage Applications and Awards

Collect, review, score, approve, and award funding through controlled workflows.

03 Establish and Control Budgets

Create project and activity budgets, maintain budget versions, and monitor balances.

04 Manage Projects and Activities

Track accomplishments, documents, contracts, communications, performance measures, and deadlines.

05 Process Financial Activity

Manage funding requests, approvals, postings, disbursements, reimbursements, and program income.

Connect Funding Management Directly to HUD IDIS

Trusted by agencies nationwide, we deliver the only complete interface with the HUD IDIS system from start to finish.

01 Manage Data in HDS

Maintain allocations, projects, activities, budgets, funding information, and financial transactions in the HDS system.

02 Validate Federal Program Requirements

Apply system validations before transmitting applicable program information to HUD IDIS.

Programs Supported

HOME and HOME-ARP
Housing Trust Fund
CDBG and CDBG-R
ESG and HESG
HOPWA and HOPWA-C
Section 3 Compliance
Build America, Buy America

03 Synchronize with HUD IDIS

Synchronize project and activity information and support the creation of fund requests and IDIS vouchers through the HDS Data Synchronization Tool.

04 Maintain Visibility and Control

Track federal activity alongside state, local, agency, and other funding sources within the same broader funding portfolio.

Greater Control. Better Data. One Connected Funding Portfolio.

HDS Funds Management helps agencies manage complex funding portfolios with the visibility, flexibility, and controls needed to move every dollar from allocation to impact.

Why Synchronization Matters

- Reduces duplicate data
- Applies validations before transmission
- Strengthens data consistency between HDS and HUD IDIS
- Supports project, activity, funding, and voucher workflows
- Improves transparency across the full funding lifecycle

The internal product materials expressly describe validation of federal program requirements before interfacing with HUD IDIS and synchronization of project, activity, funding-request, and voucher information.
