RUN WITH PATIENCE

HEBREWS 12:1

"Let us lay aside every weight, and the sin which doth so easily beset us, and let us run with patience the race that is set before us."

Hebrews 12:1 • KJV (excerpt)

Every athlete understands that progress takes discipline. Long before the crowd cheers, there are practices, setbacks, and days when quitting feels easier. Hebrews 12:1 calls us to keep moving forward with patience and purpose.

The verse also tells us to lay aside every weight. Sin can pull us off course, while distractions and unhealthy habits can slow our progress. Through prayer and honest reflection, we can recognize what we need to surrender to God.

For student-athletes, running faithfully means more than finishing a game. It means doing the homework, honoring commitments, treating others with respect, and getting back up after disappointment. We cannot control every result, but we can choose faithfulness in the next step.

God has placed a race before each of us. Keep your heart focused on Him, release what holds you back, and run with patience.

LAY ASIDE THE WEIGHT. RUN WITH FAITH.

WOMEN OF GRIDIRON

Girls Taking Over the Field: The Rise of Flag Football in Baton Rouge

by Kristeena Jackman

Football has long been a major part of Louisiana's sports culture, but a new version of the game is creating more opportunities for girls across Baton Rouge. Girls flag football is becoming an increasingly visible part of the local sports community, giving young athletes the chance to compete, develop their skills and build confidence on the field.

With programs, clinics and leagues expanding throughout the area, Baton Rouge is becoming a place where girls can see themselves as football players.

Flag football provides many of the competitive elements of traditional football while allowing athletes to play in a non-contact environment. For girls who may have never considered football before, flag football can provide an accessible introduction to the sport.

The growth is already visible in Baton Rouge.

Elite Training Academy has expanded its football offerings to include programming specifically designed for girls. The academy recently promoted a six-week girls-only flag football clinic, giving young athletes an opportunity to learn fundamentals and develop their skills in an environment built specifically for them.

The clinic represents more than another sports program. It is another sign that girls are being given dedicated space to learn, compete and grow in a sport traditionally dominated by boys.

Organizations across the region are also helping make flag football more accessible to young athletes.

Photo provided by RISE Flag Football

RISE Flag Football has developed girls-focused opportunities that emphasize skill development and competition. Its girls programming demonstrates the growing demand for structured opportunities where female athletes can receive football-specific coaching and compete alongside other girls. RISE also offers girls-only divisions within its youth flag football programming.

Meanwhile, Mind Shift Sports has helped expand youth flag football opportunities in the Baton Rouge community. The nonprofit uses sports as a way to connect young athletes with mentorship, character development and community. Its Baton Rouge programming includes NFL FLAG opportunities for both male and female

athletes, with financial assistance and scholarship opportunities available to qualifying families.

That focus is important because growing the sport is not simply about putting more athletes on a field. It is also about making sure young people have access to the resources, coaching and opportunities needed to stay involved.

The momentum surrounding girls flag football extends beyond youth recreation.

Photo provided by St. Michael Athletic Department

In Baton Rouge, girls flag football has begun making its way into the high school sports landscape. Local schools have started developing teams and competing as interest in the sport grows. A 2026 feature from 225 Magazine highlighted the emergence of girls flag football at St. Michael the Archangel High School, showing how the sport is moving from recreational programs into organized school competition.

This progression could have a major impact on the future of female athletics in the area.

For younger girls participating in clinics and youth leagues today, high school flag football can provide a pathway to continue playing as they get older. It also gives athletes an opportunity to develop football IQ, leadership skills and confidence while competing as part of a team.

As more organizations invest in girls flag football, more young athletes are getting the chance to discover the sport for themselves. What begins with a six-week clinic, a youth league or a first practice could eventually lead to a high school career, college opportunity or simply a lifelong love of the game.

For Baton Rouge girls interested in football, the message is becoming increasingly clear: There is a place for you on the field.

Southern Lab Girls Basketball: A Championship Standard

by McKenli Sewell

Winning has become a tradition for the Southern Lab Lady Kittens. Over the past several seasons, the program has established itself as one of Louisiana's top girls basketball teams, building a culture centered around discipline, teamwork and a championship mindset.

The Lady Kittens are coming off another historic season, finishing 28-5 and winning the 2026 Division IV Select state championship with a 43-38 victory over J.S. Clark. The title marked Southern Lab's third consecutive state championship and fourth championship in five years.

The program's recent success began under former head coach Quianna Chaney, a Southern Lab alumna and former LSU standout. During her seven seasons at the school, Chaney led the Lady Kittens to the 2022 state championship and a state runner-up finish in 2023. She also guided the program to multiple district championships and earned several Coach of the Year honors.

Southern Lab continued that success in 2024-25, finishing 25-5 and defeating Cedar Creek 67-57 to claim another state championship. The following season brought another dominant postseason run, with the Lady Kittens advancing through the playoffs before securing their third straight title.

Now, with a championship standard firmly established, Southern Lab continues to develop the next generation of players. The program's philosophy, "Become a Student of the Game," emphasizes preparation, discipline, effort and playing for something bigger than yourself.

For Southern Lab, the goal is no longer simply to compete for championships. It is to build a program where championship basketball has become the expectation.

How To Be Invited

Every year we get hundreds of emails asking to play in this All-American Bowl Game. We do not accept just anyone to play. Every player must have a minimum of a 2.8 GPA, have Hudl film, be recommended by their head coach, and for Lou- isiana residents attend one of our events. This game has gotten bigger and bigger every year it has been in ex- istance. This past year (2025), we had four Senior teams (Lions, Tigers, Knights, and Demons). We played two games with a 15 min champion- ship round between the two winners. This game had more than 500k total viewers on YouTube and thousands in attendance. With nearly 400 prospects to have signed to date, over 500k total view- ers from one years game, and the na- tioanl attention through ESPN; this game has become one of the premier games in the country. We look forward to seeing you at one of our camps if you wish to partici- pate.
