PREMIUM CAR CARE

STEK FORMULA

PREMIUM CAR CARE

STEK Automotive provides a specialised range of Paint Protection Film care products designed to maintain, enhance and extend the performance of PPF. The collection includes PPF safe pre-wash solutions, premium shampoo and advanced finishing products that work together to deliver effective cleaning, long lasting protection and a high clarity finish.

Engineered with professional grade formulations, each product offers reliable results and effortless application, making them ideal for both detailing professionals and car enthusiasts who want to keep their PPF looking its best.

FORMULA Shampoo

500ml

Shampoo is designed for coated and vinyl or PPF wrapped surfaces, offering a balanced blend of cleaning strength and surface care. Its pH neutral formula and ultra slick feel ensure safe washing without removing protective layers.

Order code: 122410

FORMULA Foam

500ml

Foam is a high-pH alkaline snow foam engineered for deep, thorough cleaning. It breaks down thick road grime, brake dust, tyre browning, and other built-up contaminants that standard shampoos can't remove. Despite its strength, it remains safe for use on all modern vehicle finishes.

Order code: 122398

FORMULA Bug
500ml

Bug is a high pH cleaner enhanced with natural enzymes to dissolve bug splatter, insect residue, and protein based stains. Safe for use on coatings, paint, PPF, and trim, it works at a molecular level to lift organic contaminants with ease.

Order code: 121803

FORMULA Iron
500ml

Iron is a fast acting remover that dissolves embedded brake dust and iron particles on contact. Safe for use on paint, PPF, ceramic coatings, vinyl, and wheels, it changes colour as it works, revealing contamination breakdown in real time.

Order code: 122402

FORMULA Install Gel
4 litre

Installation Gel is a high-viscosity formula designed for precision film work. Unlike water-heavy slip solutions, it clings to panels for longer working time and more accurate placement. Ideal for PPF and windshield film applications, it helps prevent stop lines and uneven drying during installation.

Order code: 122400

FORMULA Slip-Tac
500ml

Slip-Tac is a concentrated slip solution designed to make film installation smoother, cleaner, and safer. It creates a slick surface that allows precise positioning of PPF and vinyl wraps without grabbing or stretching.

Order code: 122412

FORMULA Prep
500ml

Prep (formerly OG - Oil & Grease) is a silicone free cleaner formulated to remove oils, waxes, and residues for a flawless coating or film application. Its advanced alcohol blend provides strong cleaning performance without risking damage to PPF or vinyl surfaces.

Order code: 122405

FORMULA Waterless Wash
500ml

Waterless Wash delivers a clean, glossy finish in one easy step with no hose, buckets, or rinsing required. It lifts light grime, dust, and road film while leaving behind a slick, protective layer.

Order code: 122404

FORMULA Quick Detailer
500ml

Quick Detailer (formerly Shine) is your go to solution for fast, safe surface maintenance between washes. Designed for use on PPF and painted finishes, it removes light contaminants, enhances gloss, and restores slickness with just a few sprays.

Order code: 122411

FORMULA Interior Detailer
500ml

Interior Detailer restores a clean, factory fresh appearance to interior surfaces. It lifts dust, fingerprints, and smudges with ease, leaving behind a smooth, low sheen finish free from residue or grease.

Order code: 122401

FORMULA DYNO Finish
300ml

An advanced ceramic spray coating infused with polysilazane for durable, high gloss protection. Its oil based formulation bonds deeply to the surface, boosting hydrophobicity and lasting performance. Suitable for paint, trim, glass, and PPF, it delivers a professional finish in an easy spray and wipe process.

Order code: 122397

Paint Cleanse
300ml

An ultra fine polish designed to refine and prepare delicate surfaces such as PPF and vinyl wraps. It removes haze, stains, and light residue without affecting gloss, texture, or clarity. Free from silicones, waxes, and fillers, it leaves a clean, coating ready finish.

Order code: 122406

FORMULA Matte Medic
300ml

Matte Medic is a dedicated care solution for matte finishes, combining cleaning, protection, and maintenance in one step. Infused with nano abrasives and matte safe lubricants, it removes contaminants without affecting the original texture, leaving a clean, hydrophobic surface.

Order code: 122403

FORMULA Primer
500ml

Primer is a film installation aid that enhances adhesion in hard to bond areas during PPF installation. Its fast drying formula provides secure grip on edges and curves without affecting the rest of the panel.

Order code: 122408

FORMULA Final Coat
30ml

Final Coat is a high performance ceramic coating infused with Carbon Nanotube (CNT) technology to reinforce and extend the life of paint or film. It offers superior water repellency, chemical resistance, and gloss enhancement for premium results.

Order code: 122396

PPF Compound Kit

STEK Compound Kit is a complete surface restoration and protection system for paint and PPF. It includes three core products - Compound Cut to remove swirl marks and defects, Compound Polish to refine gloss and remove residue, and Restoration Coating to seal and protect the corrected surface..

Order code: 122407

FORMULA X-Oil
100ml

X-Oil is a professional grade oil film remover for glass surfaces. Infused with fine micro abrasives, it polishes away bonded oil and stubborn contaminants that reduce clarity and visibility. Ideal for use before applying glass coatings, tint, or film, it restores a clean surface and enhances wiper performance.

Order code: 122413

STEK AUTOMOTIVE

Top-Notch Quality
Square inch for square inch, STEK paint protection films offer unparalleled value and protection. Our top-coated films are composed of thermoplastic polyurethane (TPU), which boasts significantly greater protective properties compared to conventional vinyl.

Superb Craftsmanship
From the sourcing of top-grade raw materials to innovative manufacturing technologies, our quality management team ensures that our products are always the best they can be.

Decades of Experience
With over 40 years of experience in developing adhesive-backed films, our research and development team continues to lead the market as a world-class film manufacturer.

Innovative Production
We are constantly researching, reviewing, and creating to reach ever-higher standards of performance and quality. Revolutionary improvements and new customization options are always in development.
