WELCOME MESSAGE

Dr. Vikash Chatrani

Welcome Message – CGCS Annual Scientific Meeting 2026

Dear Colleagues,
It is our great pleasure to welcome you to the beautiful island of Barbados for the Caribbean Gynecologic Cancer Society (CGCS) Annual Scientific Meeting 2026.

Renowned for its warm hospitality, rich culture, and breathtaking coastal landscapes, Barbados offers the perfect setting for both meaningful academic exchange and well-deserved relaxation. From our pristine beaches and turquoise waters to our vibrant culinary scene and historic charm, we hope you will take time to experience the very best our island has to offer.

Over the course of this meeting, we have curated a dynamic and engaging programme designed to strengthen and expand your knowledge in gynecologic oncology. Through expert-led sessions, collaborative discussions, and regional insights, this conference provides a valuable opportunity to refine clinical practice, explore emerging advances, and reaffirm our shared commitment to improving women's health across the Caribbean and beyond.

Equally important, we encourage you to enjoy the camaraderie of colleagues, reconnect with peers, and create lasting professional relationships—all while experiencing the unique rhythm and warmth of Barbados.

We trust that your time with us will be both professionally enriching and personally memorable.

Welcome once again, and we wish you a truly rewarding and enjoyable conference.

Warm regards,
Dr. Vikash Chatrani
Chairman, Caribbean Gynecologic Cancer Society (CGCS)

Baptist Health
International

Welcome to Award-Winning Cancer Care.

Baptist Health Cancer Care is once again recognized by U.S. News & World Report as one of the top cancer care programs in the nation. This year, Miami Cancer Institute earned High Performing ratings in complex cancer care, colon cancer surgery, prostate cancer surgery, lung cancer surgery, and in treating patients with leukemia, lymphoma, and myeloma. The Eugene M. & Christine E. Lynn Cancer Institute also received high performing ratings in colon cancer surgery, gynecological cancer surgery, and in treating patients with leukemia, lymphoma, and myeloma.

DAY 1
Friday 24th April, 2026

LOCAL CHAIR	SPEAKERS					
						
Dr. Vikash Chatrani	**Dr. Raleigh Butler**	**Dr. Carlos Chase**	**Dr. Juliet Skinner**	**Dr. William Boyd**	**Dr. James Castleman**	
						
Dr. John Coulter	**Dr. Ian Harley**	**Dr. Marcus Bernardini**	**Dr. Rodrigo Sánchez Bayona**	**Dr. John Moroney**	**Dr. Natalie Greaves**	

TIME	TOPIC	SPEAKER
7:30 am - 8:30 am	Registration and Welcome Breakfast	
8:45 am - 9:00 am	Opening Remarks	**Dr. Vikash Chatrani** – **Chairman, CGCS**
9:00 am – 9:20 am	Welcome Remarks	**Dr. Raleigh Butler** – **President, CGCS** **Dr. Carlos Chase** – **Director of Medical Services, Queen Elizabeth Hospital, Barbados**
9:20 am – 10:05 am	Fertility Cryopreservation Options For Patients Diagnosed With Cancer	**Dr. Juliet Skinner**

TIME	TOPIC	SPEAKER
10:05 am - 10:50 am	Uterine Transposition: A Surgical Strategy for Fertility Preservation in Pelvic Radiotherapy	**Dr. William Boyd**
10:50 am - 11:10 am	**Coffee Break**	
11:10 am – 11:55 am	Cancer and Pregnancy: Maternal and Fetal Consideration	**Dr. James Castleman**
11:55 am – 12:40 pm	What's New in the Management of Gestational Trophoblastic Disease	**Dr. John Coulter**
12:40 pm – 1:25 pm	Personalised Surgical Staging in Endometrial Cancer: The Role of Sentinel Lymph Nodes and Molecular Profiling	**Dr. Ian Harley**
1:25 pm – 2:10 pm	Secondary Cytoreduction in Ovarian Cancer – Don't Remove the Patient and Leave the Disease Behind.	**Dr. Marcus Bernardini**
2:10 pm – 3:10 pm	**Lunch & Sponsor Engagement**	
3:10 pm – 3:50 pm	(Virtual Speaker) Advancing Precision Oncology: The Role of HRD and BRCA Testing in Clinical Decision-Making	**Dr. Rodrigo Sánchez Bayona**
3:50 pm – 4:20 pm	University of Chicago Faculty Emerging Trends in Multidisciplinary Gynecologic Oncology Care	**Dr. John Moroney**
4:20 pm – 5:05 pm	Palliative Care in Gynecologic Oncology	**Dr. Natalie Greaves**

Caribbean Gynecologic Cancer Society

DAY 2
Saturday 25th April, 2026

SPEAKERS

Dr. Philip Toosz-Hobson

Dr. Anesa Ahamad

Dr. Alana Francis

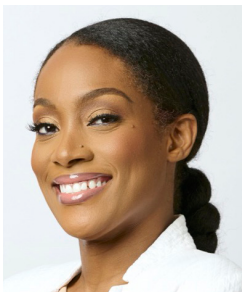

Dr. Eddie Morris

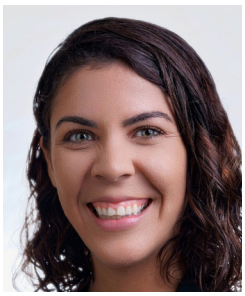

Dr. Trena Stoute

Dr. John Diaz

Dr. Anna Kay Taylor Christmas

Dr. Stephanie Date

TIME	TOPIC	SPEAKER
8:00 am – 9:00 am	Registration and Welcome Breakfast	
9:00 am – 9:35 am	Voiding difficulties after radical surgery	**Dr. Philip Toosz-Hobson**
9:35 am – 10:10 am	"If Your Doctor Says the Cancer Is Stage IV, Ask If It Is Oligometastatic." What Has Changed Since You Trained?	**Dr. Anesa Ahamad**
10:10 am - 10:30 am	**Coffee Break**	
10:30 am – 11:05 am	A Summary of Pediatric & Adolescent Gynecology in Barbados: Transitioning from a High to Low Resource setting	**Dr. Alana Francis**

TIME	TOPIC	SPEAKER
11:05 am – 11:40 am	HRT and Cardiovascular Disease: Will we ever reach a consensus	**Dr. Eddie Morris**
11:40 am - 12:15 pm	Bridging Surgery and Systemic Therapy: Improving Ovarian and Endometrial Cancer Outcomes in the Caribbean	**Dr. Trena Stoute**
12:15 pm – 12:50 pm	Innovations in Surgical Management of Gynecological Cancer	**Dr. John Diaz**
12:50 pm – 1:35 pm	Turning Epidemiological Insight Into Cervical Cancer Elimination Strategy	**Dr. Anna Kay Taylor - Christmas**
1:35 pm - 2:15 pm	(Virtual Speaker) Beyond Diabetes: Metformin and Endometrial Cancer in Barbados	**Dr. Stephanie Date**
2:15 pm – 3:30 pm	**Lunch & Sponsor Engagement**

Dr. Vikash Chatrani

Dr. Vikash Chatrani, Barbadian born, started his medical training at the University of the West Indies in Jamaica in 1997. Having completed his pre-clinicals he returned to Barbados to complete his MBBS degree attaining honours in Obstetrics and Gynaecology, General Surgery and Pharmacology. He was valedictorian for his year having gotten the gold medal in surgery for all 3 campuses, and recipient of numerous prizes including the Sir Arnott Cato prize for his results in the MBBS examination.

Dr. Chatrani holds a Doctorate (DM) in Obstetrics & Gynaecology. He is a fellow of the American College of Obstetricians and Gynaecologist and was the chair for the West Indies section of ACOG before moving to do his clinical fellowship in Gynae-Oncology and Minimal Access Surgery at the Tata Memorial Hospital in Mumbai.

On Dr. Chatrani's return to the QEH in October 2012, he was the catalyst in the Obstetrics & Gynaecology department forming a specialist Gynae-Oncology service which addresses all the islands gynae-oncology cases, and oversees the Colposcopy clinics. Apart from his role as a Consultant at the QEH Dr Chatrani has served as the Clinical Director at the Barbados Cancer Society, the 1st Vice President of the Barbados Association of Medical Practitioners, Specialist Physician to the Healthy Caribbean Coalition and is currently an Associate Lecturer with the University of the West Indies and General Secretary of the Caribbean Gynaecological Cancer Society.

Dr. Raleigh Butler

Dr. Raleigh Butler earned his MBBS from the University of the West Indies, Mona, on a Bahamas Supermarket scholarship, and became a Member of the Royal College of Obstetricians and Gynaecologists (UK) in 1990. He previously served as Head of Obstetrics and Gynaecology at Rand Memorial Hospital in Freeport, where he developed a strong interest in addressing the limited oncology services in The Bahamas.

Awarded a Commonwealth Scholarship, he pursued research at the University of Southampton, focusing on molecular genetics in gynaecological cancers. He co-authored several publications, including work on loss of heterozygosity in cervical cancer, and earned his MD for this research. He has continued his research locally, including studies on HPV serotypes in HIV patients in The Bahamas.

Dr. Butler completed his fellowship in Gynaecologic Oncology at the University of Toronto in 1999. Since returning home, he has served as Chairman of Obstetrics and Gynaecology and Consultant Gynaecologic

Oncologist at Princess Margaret Hospital. He is actively involved in regional and international cancer initiatives, including cervical cancer prevention efforts, PAHO working groups, and leadership roles within Caribbean and global gynaecologic oncology organizations.

His research interests include cervical cancer screening, HPV and HIV, endoscopic surgery in early endometrial cancer, and neoadjuvant chemotherapy for ovarian cancer. He has contributed to textbook chapters, multiple publications, and national protocols in colposcopy, and remains engaged in ongoing local and international research.

Dr. Philip Toosz-Hobson

Dr. TOOZS-Hobson is a consultant Urogynaecologist and trained under the aegis of Linda Cardozo. He has led the Urogynaecology service at Birmingham Women's hospital for over 25 years. His expertise within Urogynaecology includes maternal birth injury and diagnostics.

Dr. TOOZS-Hobson was director of meetings at the Royal College of Obstetricians and Gynaecologists (RCOG) and Treasurer of the British Society of Urogynaecology (BSUG). He has a wealth of medicolegal experience and currently co-chairs the RCOG wellbeing committee.

Dr. TOOZS-Hobson's research portfolio includes over £5 million in grants and he was the chief investigator for C STICH. He has published over 230 articles.

Dr. Carlos Chase

Dr. Carlos A. Chase
Consultant Obstetrician & Gynecologist | Barbados

Dr. Carlos A. Chase is a highly experienced and respected Consultant Obstetrician and Gynecologist in Barbados, with over three decades of specialist practice. Fully registered as a medical practitioner on the island, he has been delivering comprehensive women's healthcare services since 1994. Dr. Chase holds a Bachelor of Medicine and Bachelor of Surgery (MBBS), an Advanced Diploma in Obstetrics and Gynecology (DGO), and a Doctor of Medicine (DM) in Obstetrics and Gynaecology. He has further strengthened his clinical expertise with a Certificate in Lactation Management (CLM) and The Osgoode Certificate in Clinical Risk, Negligence and Claims Management in Health Care.

He currently serves as a Consultant Obstetrician and Gynecologist in the Department of Obstetrics and Gynecology at the Queen Elizabeth Hospital, while also maintaining a thriving private practice. In addition, Dr. Chase contributes to medical education as an Associate Lecturer at the University of the West Indies (UWI).

A Fellow of the American College of Obstetricians and Gynecologists (FACOG) and a member of the Barbados Association of Obstetricians and Gynaecologists (MBAOG), Dr. Chase is widely recognised for his commitment to clinical excellence, patient-centred.

Dr. Juliet Skinner

Dr. Skinner was born in Barbados. She completed her undergraduate medical training at Trinity College Dublin, Ireland. Following which she completed speciality training in Obstetrics and Gynaecology at the Coombe Women's Hospital, Dublin and gained membership with Royal College of Obstetricians and Gynaecologists in London (MRCOG), and the Royal College of Physicians in Ireland (MRCPI).

In 1999 Dr. Skinner returned home to Barbados and dedicated her time to expanding the medical care options for women on the island and within the Caribbean. Fertility and IVF then became the main focus of her interest and she was instrumental in the opening of the islands first In Vitro Fertilisation unit in 2002.

The centre was established to treat local, regional and international patients – with almost 90 % of patients being non-residents. The Barbados Fertility Centre is the regions only JCI accredited IVF unit and joins a handful of medical facilities with JCI accreditation in the Caricom region.

Barbados Fertility Centre opened a satellite unit in Trinidad in 2009 and opened a second IVF facility in Cayman in 2019. Dr. Skinner remains the Medical Director of Barbados and will continue on the board of management and advisor to Cayman Fertility Center.

In 2021 Dr Skinner was awarded 'the Order of the Republic (OR)" as part of the independence Honors of Barbados, in recognition of her contribution to be the medical field in Barbados and globally.

Dr. William Boyd

Mr. William (Bill) Boyd is an accomplished Gynaecologist and Gynae-Oncologist with a career spanning over three decades in clinical practice, surgical innovation, and healthcare leadership.

Bill earned his medical degree from University College Dublin (UCD) in1985 (p. 1). He completed extensive postgraduate training, becoming a Fellow of the Royal College of Surgeons in Ireland (1988) and a Member of the Royal College of Obstetricians and Gynaecologists (1989) (p. 1).

His specialized training included a fellowship in gynaecological cancer (1994-1995) and positions at prestigious international institutions such as The John Radcliffe Hospital in Oxford and several leading cancer centres in Toronto and Hamilton, Ontario.

Beyond clinical practice, Mr Boyd has held significant administrative roles, including Head of the Gynaecology Department (1996-2023) and Clinical Director of Surgery (2021-2023) at the Mater Hospital.

An active individual, Mr Boyd enjoys running marathons and triathlons, sea swimming, and gardening (p. 2). He is also a keen cook, having completed the Ballymaloe 12-week chef course in 2023.

Dr. James Castleman

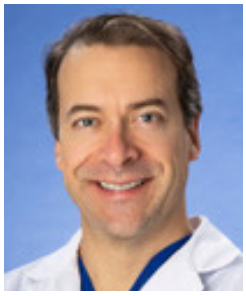

Dr. Castleman is a Consultant Obstetrician and subspecialist in Maternal and Foetal Medicine at Birmingham Women's Hospital. His main clinical interests are in foetal intervention, prenatal genetics and obstetric cardiology. Practising in one of Europe's largest maternity centres, James cares for women and their babies affected by complex medical problems, including pregnant women with malignancies. His talk will focus on the obstetric issues encountered by women diagnosed with cancer, and the impact of oncological management on the pregnancy.

Dr. Ian Harley

Dr. Harley is a Consultant Gynaecological Oncologist at the Northern Ireland Regional Cancer Centre. He graduated from The Queen's University of Belfast in 1993 and completed Gynae. Oncology Fellowship at the University of Toronto in 2006. Dr. Harley is an honorary lecturer at the Cancer Research Centre, Queen's University, Belfast with an interest in High Grade Serous Cancer biomarkers and hereditary cancer genetics. Surgically, his interests include minimal access surgery in Gynaecological malignancies and prevention. Paradoxically he is also one of the lead cytoreduction surgeons, with maximal access, working at the Cancer Centre.

Dr. Harley's outside interests include sailing, skiing, triathlon, music, medical history and spending time with family and friends.

Dr. Marcus Bernardini

Dr. Bernardini is a graduate of Western University. He did his residency at the University of Toronto. During that period, Dr. Bernardini obtained a Master's degree in Laboratory and Pathobiology, which was followed by a combined fellowship in Gynecologic Oncology at the University of Toronto and Duke University Medical Centre. He is currently the head of the division of gynecologic oncology at the University Health Network and Sinai Health Systems.

Dr. Bernardini is an associate professor at the University of Toronto. He leads the UHN gynecologic robotic surgery program and is the Director of the

Women's College Prevent Ovarian Cancer Program. His research interests include improving outcomes for women with uterine and ovarian cancer. This includes minimizing morbidity relating to surgery, and risk stratification for women at risk for developing ovarian cancer. His research interests also include understanding the pathophysiology of uterine sarcomas.

In collaboration with basic scientists, Dr. Bernardini has acquired research funding from several national agencies including CCSRI and CIHR and has been an author on over 150 peer reviewed manuscripts.

Dr. Bernardini developed the Comprehensive Ovarian Tumor Program at the University Health Network in 2018 to standardize the management of patients with Ovarian Cancer, create a defined research platform and data repository. To date, over 900 women with advanced ovarian cancer have entered the program.

Dr. Bernardini has held administrative positions in both national and provincial organizations in Canada.

Dr. Trena Stoute

Dr. Stoute is a Barbadian born, U.S. board-certified Medical Oncologist and Hematologist and the founder of CariWell Health, a hybrid oncology practice delivering timely, evidence-based cancer care across the Caribbean.

Dr. Stoute earned her medical degree from the University of the West Indies, completed her residency at SUNY Downstate in Brooklyn, New York and her Hematology/Oncology fellowship at the University of Connecticut. Dr. Stoute has practiced in both the United States and Barbados and is a member of the American Society of Clinical Oncology.

Dr. Stoute's work centers on reducing delays in cancer treatment and expanding access to high-quality care for patients throughout the Caribbean. At CariWell Health, patients receive timely, compassionate care that restores hope and gives every person the chance to fight and live.

Dr. John Moroney

Dr. Moroney is an Associate Professor of Obstetrics & Gynaecology, Associate Professor of Medicine and Chief of the Gynaecologic Oncology Section University of Chicago Medicine.

Dr. Moroney received his medical degree at Loyola University Stritch School of Medicine, completed his internship at Walter Reed National Military Medical Center, his residency at National Capital Consortium and his fellowship in gynaecologic oncology at U.T.M.D Anderson Cancer Center.
He has published numerous papers in his field.

Dr. Natalie Greaves

Dr. Greaves is a Tenured Lecturer in public health and Coordinator of the MPhil/PhD program in public health and epidemiology at the University of the West Indies (UWI) Cave Hill Campus in Barbados. Her work includes teaching theoretical principles in palliative care and research methods at both the postgraduate and post-graduate levels.

Dr. Greaves has devoted much of her career advocating for the development of palliative care services and education in the Caribbean. Leading various scientific advisory and palliative care development initiatives on the island of Barbados. Dr. Greaves was consultant for the Barbados Palliative Care Needs Assessment Project – Ministry of Health Barbados and a founding director of the island's national Palliative Care Association (2011-2012). She was also consultant to the Barbados Hospice Project stakeholder engagement process, and Chair of the National Advisory Committee on Chronic Pain Management with the Ministry of Health Barbados (2011-2018).

She was section lead for palliative care in the development of the Barbados National Cancer Control Plan (2015-2018). In 2016, Dr. Greaves received a Commitment to Excellence Award granted by the University of Southern Caribbean-Barbados in recognition of her work in palliative care. She launched UWI Cave Hill's first graduate course in palliative care as well as a massive open online course in palliative care with colleagues from the Caribbean region.

Dr. Greaves joined the board of the International Association of Hospice and Palliative Care-IAHPC in Jan 2023, most recently heading its delegation to the Executive Board Meeting of the WHO in February 2026.

Dr. Greaves' research focuses on applied public health, cancer prevention and control, palliative care, health care organization and delivery, and access pathways to care. Her dominant research methodology is qualitative.

Dr. Anesa Ahamad

Dr. Ahamad is a board-certified radiation oncologist with over three decades of clinical, academic, and research experience at world-leading institutions including MD Anderson Cancer Center, Houston and the Christie Hospital (Manchester, UK). She is the sole recipient in history of both gold medals of the Royal College of Radiologists, London — the Frank Doyle Medal and the Rohan Williams Medal — and holds dual specialist certification as Fellow of the Royal College of Radiologists (FRCR) and Diplomate of the American Board of Radiology. She received the ASCO Merit Award (2010) and was named a Caribbean Icon in Science, Technology and Innovation.

Dr. Ahamad's clinical expertise encompasses a wide range of malignancies, with advanced proficiency in IMRT, SBRT, stereotactic radiosurgery, and image-guided adaptive radiotherapy. In 2024 she led the first radiosurgery procedures in the region.

Dr. Ahamad is the author of 147 scholarly works including textbook chapters in core textbooks. She mentored physicians across three continents and founded nonprofit programs to expand cancer care access throughout the region. Driven by the conviction that patients in the Caribbean deserve best-practice cancer treatment, patients from Barbados and across the Caribbean can access Dr. Ahamad's expertise without delay — there is currently no waiting list. She brings world-class oncology expertise directly to the patients who need it most.

Dr. Alana Francis

Dr. Alana Francis is a consultant OBGYN and Paediatric & adolescent gynaecologist at the QEH. She has served within the department for just over a decade. Dr Francis completed her residency at UWI in 2021 and subspecialty training at the University of Toronto in 2025. She is dedicated to providing compassionate, evidence-based care for young patients, with a focus on supporting healthy development and addressing complex gynaecologic needs in children and adolescents.

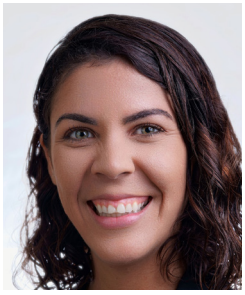

Dr. Eddie Morris

Professor Morris is regional medical director for the East of England, a post he started in December 2022, following his three-year Presidency at the Royal College of Obstetricians and Gynaecologists He is an Honorary Professor for Women's Health at Norwich Medical School, University of East Anglia.

Professor Morris took up his Presidency in 2019 and during his term covered the COVID-19 pandemic, rapidly producing the RCOG COVID guidance, the call for workforce investment and the need to address health inequalities.

Prior to his Presidency, Professor Morris was RCOG Vice President for Clinical Quality (2016-2019) and Fellows representative for the East of England on RCOG Council (2011-2016). During his Presidency he also held the position of Vice Chair (Standards) at the Academy of Medical Royal Colleges. He is Chair of the Multiprofessional Advisory Panel for Baby Lifeline and chair for Group B Strep Support.

Professor Morris was awarded a CBE in the King's Birthday honours list in 2023 for his service towards the improvement of women's healthcare and patient safety.

Dr. Stephanie Date

Born and raised in Barbados, **Dr. Stephanie Date** holds an MBBS and a PhD in Pharmacology from the University of the West Indies (UWI), Cave Hill. Her doctoral dissertation examined metformin's potential antineoplastic effects in endometrial cancer among Barbadian women of Afro-Caribbean descent. This work represents pioneering research in this population and contributes meaningfully to the growing body of health disparities research in the Caribbean.

With a strong commitment to medical education and research, Dr. Date currently serves as a full-time Lecturer in Anatomy and Pharmacology at Ross University. Her academic work is complemented by extensive regional and international engagement in health disparities research.

She previously served as Fellowship Director for the Yale Transdisciplinary Collaborative Center (Yale-TCC) for Health Disparities Research and remains actively involved with the Eastern Caribbean Health Outcomes Research Network (ECHORN). In addition, she frequently consults with the Healthy Caribbean Coalition (HCC), where her work focuses on non-communicable disease research and alcohol policy implementation.

Dr. Date has served as both Medical Director and Council Member of the Barbados Cancer Society and has been a subcommittee member of the National Breast Screening Programme since 2018. She is deeply committed to strengthening the research, technological, and organizational capacity of cancer services in Barbados. She is also passionate about advancing inclusivity in healthcare and seeks to leverage her training in American Sign Language to advocate for improved access and representation for Deaf and Hard-of-Hearing communities across her professional roles.

Dr. John Diaz

John P. Diaz, M.D., is a board-certified gynecologic oncologist and director of robotic surgery at Baptist Health. He also serves as chief of gynecologic oncology and director of clinical research in gynecologic oncology at Baptist Health Miami Cancer Institute. In addition, Dr. Diaz is chair and associate professor of the Department of Obstetrics and Gynecology at Florida International University Herbert Wertheim College of Medicine.

Dr. Diaz provides comprehensive and compassionate gynecologic cancer care for women with endometrial, ovarian, cervical, vaginal, or vulvar cancer. He has extensive training and experience in robotic and minimally invasive surgery, which results in shorter hospital stays and faster recovery times for patients.
A surgical innovator, Dr. Diaz has helped pioneer novel procedures such as fertility-sparing radical trachelectomy for early-stage cervical cancer and sentinel lymph node mapping in gynecologic malignancies. He also performed Florida's first uterine transposition procedure for a patient with gynecologic cancer, preserving reproductive potential in a groundbreaking approach.

Under the direction of Dr. Diaz, the gynecologic oncology research and clinical trials program at Baptist Health Miami Cancer Institute offers patients innovative treatments and access to advanced technologies. His research interests include new surgical methods for ovarian cancer and innovative cancer therapies like hyperthermic intraperitoneal chemotherapy and immunotherapy. He was awarded a $1.7 million research grant to investigate novel therapeutics for the treatment of gynecologic cancers.

Dr. Anna Kay Taylor Christmas

Dr. Anna-Kay Taylor Christmas
Consultant Gynaecologic Oncologist | Jamaica

Dr. Anna-Kay Taylor Christmas is a Consultant Gynaecologic Oncologist based in Jamaica, providing specialist care in both the public and private healthcare sectors. She practices at the Victoria Jubilee Hospital and privately at Unit 15, Winchester Business Centre in Kingston.

She holds undergraduate qualifications of Bachelor of Medical Sciences (BMedSci) and Bachelor of Medicine, Bachelor of Surgery (MBBS), and completed her postgraduate training with a Doctor of Medicine in Obstetrics and Gynaecology (DM O&G). Dr. Taylor Christmas further advanced her expertise through a Fellowship in Gynaecologic Oncology in Melbourne, Australia, equipping her with advanced skills in the management of complex gynecologic cancers.

Dr. Taylor Christmas plays an active role in national health policy and cancer control initiatives. She is a member of the Cancer Technical Working Group under the National Committee on Non-Communicable Diseases at the Ministry of Health and Wellness (MOHW), Jamaica. She also serves on the HPV Technical Working Group, where she is an expert advisor contributing to the implementation of primary HPV screening in clinical practice. Additionally, she is a member of the expert physician panel for the National Health Fund Jamaica.

Her clinical and research focus is centered on cervical cancer elimination, with a strong emphasis on primary HPV screening as a transformative tool in early detection and prevention.

Outside of medicine, Dr. Taylor Christmas has a passion for choral singing, reflecting her well-rounded interests beyond her clinical work.

CLOSING REMARKS

Dr. Vikash Chatrani

The Caribbean Gynaecologic Cancer Society (CGCS) extends its sincere gratitude to our valued sponsors for their generous support and partnership in making this meeting possible.

We also thank all attendees, speakers, and participants for your engagement, contributions, and commitment to advancing gynaecologic cancer care across the Caribbean and beyond.

Your presence has made this meeting a meaningful and impactful exchange of knowledge and collaboration.

We look forward to continuing this important work together and to welcoming you at future CGCS meetings.

Warm regards,
Dr. Vikash Chatrani
Chairman, Caribbean Gynecologic Cancer Society (CGCS)

Caribbean Gynecologic
Cancer Society
