

FINE ART OCEAN PHOTOGRAPHY

NYC

TRADE LOOK-BOOK

PROFESSIONAL PARTNERSHIP PROGRAM

THE WORK

Large-format ocean photography, made to fit your design.

Primarily made while swimming in the surf zone of local waters, each Wall Art piece is a limited-edition acrylic face-mount, built to hold a room. Ocean images work with intentional designs ranging from bold to tranquil, for residential and hospitality spaces alike.

This look-book shows real examples of our installations and references: the collection, sizes, editions, and how we partner with the trade, in one place. Find a piece on our [Wall Art page](#) that fits your project, or contact Alex directly for a consultation.

“I can’t imagine a way to be more connected with nature than to be immersed in the ocean.”

— Alexander Walsh (photographer/owner)

ALTOWA IMAGE is the collection and New York City gallery of ocean photographer Alexander Walsh.
