About #CTS24

The London Climate Technology Show – Driving innovations for a net zero world.

Helping accelerate the global net zero economy transition, the London Climate Technology Show is the most sought after exhibition & conference focused on the fast developing climate technology value chain, where stakeholders from across the world assemble to experience two days of high value content and unparalleled business opportunities.

The London Climate Technology Show aims to be the largest climate technology exhibition and conference in the world for advancing the global net zero economy transition and shaping a sustainable future with ground breaking and collaborative technologies.

Aiming to accelerate the achievement of the goals outlined in the Net Zero pledges internationally, the event will bring together policymakers, industry leaders, investors, sustainability experts, and innovators to showcase the latest sustainability tech and drive the transition to a low carbon economy.

Building on two years of tremendous success, the globally acclaimed exhibition & conference will once again offer best-of-its-kind networking platform for governments, individuals and businesses of all sizes to showcase disruptive sustainability solutions to mitigate the climate crisis, help gain invaluable knowledge on green tech innovations & effective decarbonisation strategies accelerating the transition. At the core of the London Climate Technology Show is a shared mission to accelerate the transition to a sustainable, net-zero future.

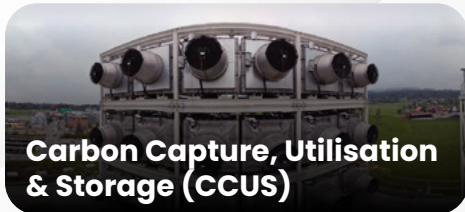

#CTS24

Key Event Themes

Energy

Uncover the pivotal role of the energy sector in addressing climate challenges at The London Climate Technology Show. Gain insights into clean energy sources, energy efficiency, and sustainable energy practices, and how they contribute to a greener and more climate-resilient world with industry stakeholders from the entire energy industry value chain including hydroelectric power, solar, wind energy, hydrogen, bio fuels & other alternative fuels.

Carbon Capture, Utilisation & Storage (CCUS)

Understand the importance of decarbonisation efforts through carbon capture, utilisation, and storage (CCUS) technologies at The London Climate Technology Show. Learn how these approaches are crucial in reducing greenhouse gas emissions.

Carbon Markets and Trading

Uncover the pivotal role of carbon markets in addressing climate challenges at The London Climate Technology Show. Gain insights into carbon pricing mechanisms, emissions trading, and innovative approaches to incentivise businesses and industries towards reducing their carbon footprint. Engage with experts and stakeholders shaping the future of carbon markets, exploring strategies for achieving carbon neutrality.

Investments in Sustainable Technologies

At The London Climate Technology Show delve into the world of sustainable investments and their potential for positive impact. Explore opportunities for individuals and businesses to invest in technologies and projects that promote environmental sustainability.

Agriculture, Food, and Land Use

Examine the critical role of agriculture and land use in achieving climate goals at The London Climate Technology Show. Discover sustainable agricultural practices, food production innovations, and land management strategies that contribute to a more climate-resilient food system.

Built Environment

At The London Climate Technology Show explore the intersection of architecture, construction, technology and sustainability. Learn how innovative design and building practices are shaping eco-friendly structures and urban environments, paving the way for a more sustainable future.

Startup Acceleration

Startups at the London Climate Technology Show will showcase their role in creating impactful change. Discover how these emerging companies are driving innovation and rapid adoption of sustainable technologies.

Conference

Bringing Together The Entire Net Zero Value Chain And Uniting Top Minds In The Climate Action Race

The London Climate Technology Show will host a stellar lineup of speakers including business leaders, policymakers, investors, and other climate action professionals, highlighting the potential for technology to drive progress in the fight against climate change. The conference will feature panel discussions, Q&As and keynote presentations on the latest trends and innovations in the sustainable technology sphere and the ways that businesses, governments and startups can work together to accelerate the transition to a low-carbon economy.

By attending the London Climate Technology Show, participants will be able to connect, convene & collaborate with hundreds of key industry players right from business, government, solution providers to startups working together across various sectors including Clean Energy, Carbon Capture Utilisation and Storage (CCUS), Food, Agriculture & Land Use, Energy, Built Environment, Startup Acceleration, and Corporate Sustainability at large.

Why Attend?

01

Learn about the Latest Sustainable Solutions

At the London Climate Technology Show, you will have the opportunity to learn about the latest sustainable solutions and advancements in the sustainability sector. The event offers a unique platform to explore new technologies, products, and services that can help individuals and organisations alike to reduce their carbon footprint and become more environmentally friendly.

02

Network with Industry Leaders and Experts

The London Climate Technology Show will provide you with a chance to network with industry leaders, experts, and innovators in the sustainability sector. Attendees can exchange ideas, learn from experiences, and build new connections that can lead to potential partnerships or business opportunities.

03

Contribute to the Global Transition to a Low-carbon Economy

By attending the London Climate Technology Show, you can contribute to the global transition to a low-carbon economy. The event showcases the latest sustainable solutions and provides a platform for collaboration, learning, and growth, empowering attendees to accelerate their own sustainability journeys and become part of the collective effort to build a better future for generations to come.

04

Gain insights into Effective Decarbonisation Strategies

The London Climate Technology Show offers you a chance to gain valuable insights into effective decarbonisation strategies. Attendees will be able to attend workshops, panel discussions, Q&As and keynote speeches by experts in the sustainability sector, learning about the latest policies, technologies, and solutions that can help them reduce their carbon footprint.

05

Find Inspiration

The event will be a great source of inspiration. Seeing the work of other sustainability professionals, listening to their ideas, and engaging in discussions can spark new ideas and approaches to your work. Inspiration can be an essential component of sustainable development work, and the London Climate Technology Show can help you find it.

Exhibition

The Biggest Showcase of the latest groundbreaking Climate Tech and Net Zero Innovations!

The exhibition at the London Climate Technology Show offers the most important and innovative platform available for climate technology in particular and corporate sustainability in general. The event facilitates an engaging space especially curated to explore disruptive technology solutions leading the way towards climate action and a net zero economy.

The show will feature a massive floor plan encompassing a showcase of the latest products, services and solutions from leading climate tech startups, established brands and other top sustainability players all under one roof.

At the London Climate Technology Show, innovation meets sustainability, and the future of climate technology

takes centre stage. Our exhibition is the premier platform for exploring the most groundbreaking solutions in climate technology and corporate sustainability spheres.

Join the London Climate Technology Show and be part of a community of like-minded individuals and organisations who are dedicated to making a difference with sustainable actions.

Why Exhibit?

01

Unmatched Brand Visibility

By exhibiting at the London Climate Technology Show, you and your company can increase its visibility in front of the most relevant audience. The event brings together industry leaders, experts, and innovators who are interested in sustainability and low-carbon solutions.

02

Networking Opportunities

Exhibiting at the London Climate Technology Show provides an opportunity for you to network with other industry leaders, experts, and innovators. Exchange ideas, collaborate, and build connections that will lead to potential partnerships and profitable business opportunities.

03

Access New Markets

The London Climate Technology Show attracts attendees from around the world, providing you with an opportunity to access new markets. Exhibiting at the event will help you expand your customer base and explore new business opportunities.

04

Generate New Business and Sales Opportunities

Exhibiting at the London Climate Technology Show provides your company with an opportunity to generate qualified business leads. You can engage with attendees and showcase your sustainable solutions, which can lead to potential sales and partnerships. Exhibiting at the event can also help you to meet existing clients and strengthen your relationships, which can result in business growth and positive word-of-mouth marketing.

Exhibiting at the London Climate Technology Show will surely enhance your company's reputation by demonstrating your commitment to sustainability and the low-carbon economy. By showcasing your sustainable solutions and environmental innovations, you can position yourself as a leader in the global sustainability sector.

ORGANISER PROFILE

Established in 2009, we are a UK based organisation providing a wide range of services in diversified market domains to a global client base across the developed and emerging geographies. We provide bespoke consulting, events, training, IT and marketing services that help our clients capture promising opportunities, address critical challenges and improve their overall competitive position in the global market.

Headquartered in London, we have a global presence with a representative office in Birmingham and representation across the Middle East, Asia, Africa and the Americas. With a business presence of more than a decade, we are recognised for our comprehensive portfolio of services and have successfully collaborated with Governments, NGO's and a multitude of organisations from MNCs to SMEs with an aim to deliver pragmatic and indelible results.

For more than a decade we have organised international events including Training Masterclasses, Conferences & Exhibitions in global cities - London, Houston, Delhi, Khartoum, Lisbon, Marrakech, Perth, Mumbai, Georgetown, Dublin & Paris. Our shows enjoy an unparalleled reputation as the optimal trading platforms for global & regional companies, service & technology providers that bring together a pool of business leaders, policymakers & thought leaders from different corners of the world.
