Installation information

Number of installers (concrete)	At least 2 people
Total installation time (concrete)	45-90 min.
Number of installers (equipment)	At least 2 people
Total installation time (equipment)	90-120 min.
Excavation volume	0.5 m³
Concrete volume	0.5 m³
Size of the base structure	0,8 x 0,8 x 0,8 m
Anchoring options	Surface mounted

In combined structures, the volume of concrete required varies.

Technical specification

Safety surfice area	Around 1,5 m radius
Net weight	83 kg
Material	S235,KO33
Critic fall height	480 mm
Color options	

For more color options, discuss with your sales representative.

Warranty

Structure	10 years
Steel	5-10 years
Paint	2 years
Plastic	5-10 years
Rubber	1-3 years
Moving parts	2 years

Detailed information in the warranty document

Material specification

1

The element is made of high quality S235 steel, which has been cleaned via sandblasting. A corrosion resistant powder coating finish is then applied. Also available with galvanized surface for even greater protection and longevity!

2

The footrests are made of premium quality non-slip HDPE with a high wear resistance.

3

The bumpers of the devices are made of durable rubber material.

4
The device is fitted with composite bearings that are weather-resistant. The bearing does not require regular maintenance.

5

The seats and backrests are made of strong HDPE material. Which is fully heat, moisture and UV resistant.
