Kitchen and Bath Design

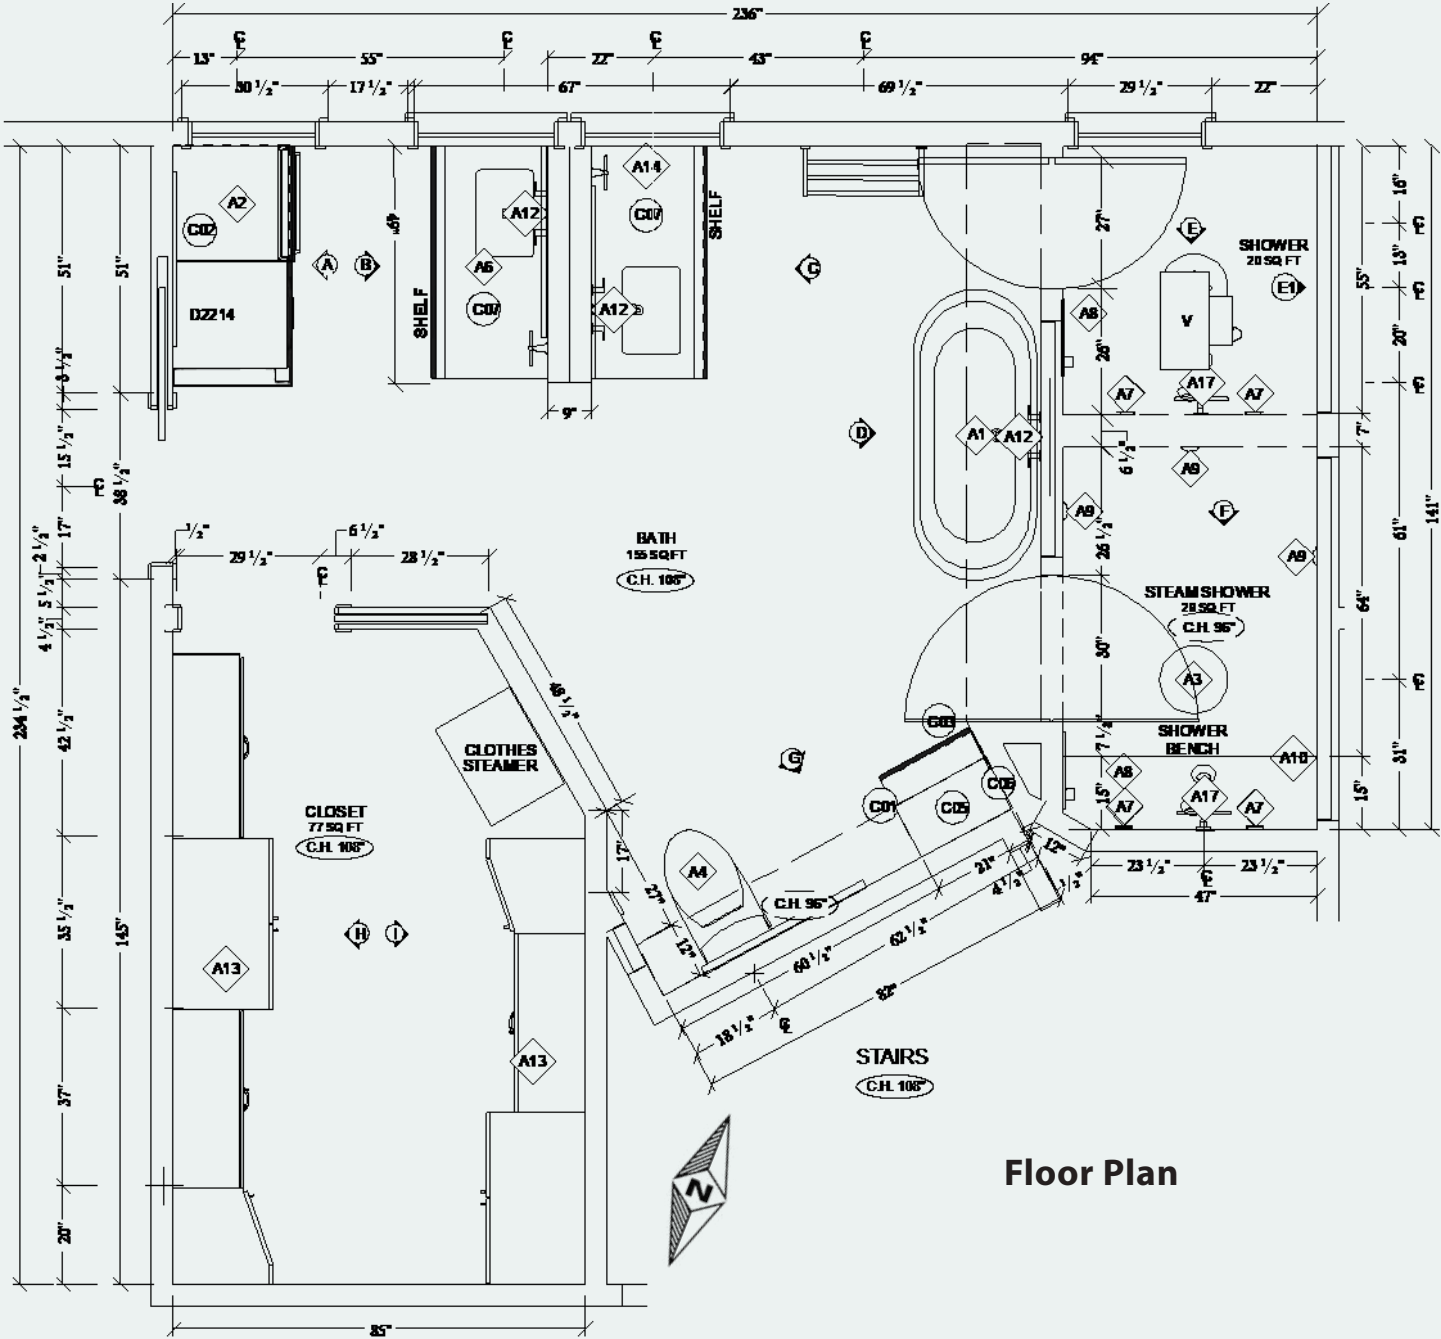

The Objective |

The Williams couple requested:

- ◇ Spa-like sanctuary
- ◇ Separate vanities
- ◇ Dual shower
- ◇ Refrigeration for cosmetics
- ◇ Plentiful storage
- ◇ Privacy for commode

The Solution |

Soft, *organic* colors and materials combined with indulgent amenities like *dual vanities*, steam + regular showers, *bidet commode*, powered window treatments, *refrigerator drawer*, and heated towel racks and flooring.

Harris Home

Residential
Design

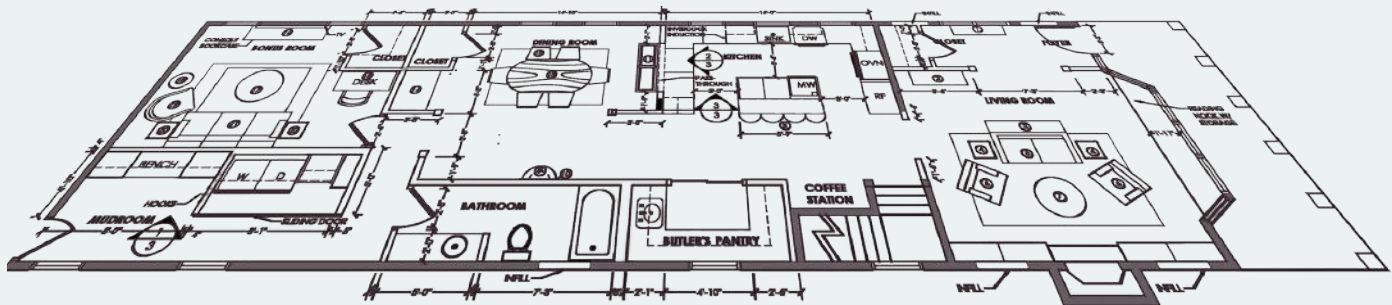

The owners of this historic brownstone in Chicago wanted to preserve the original architectural details and charm of their home but were ready to embrace a new layout that made the traffic flow more intentional, expanded the kitchen, and updated the typical “back-of-house” amenities resulting in a home that is elegant yet functional.

Techniques

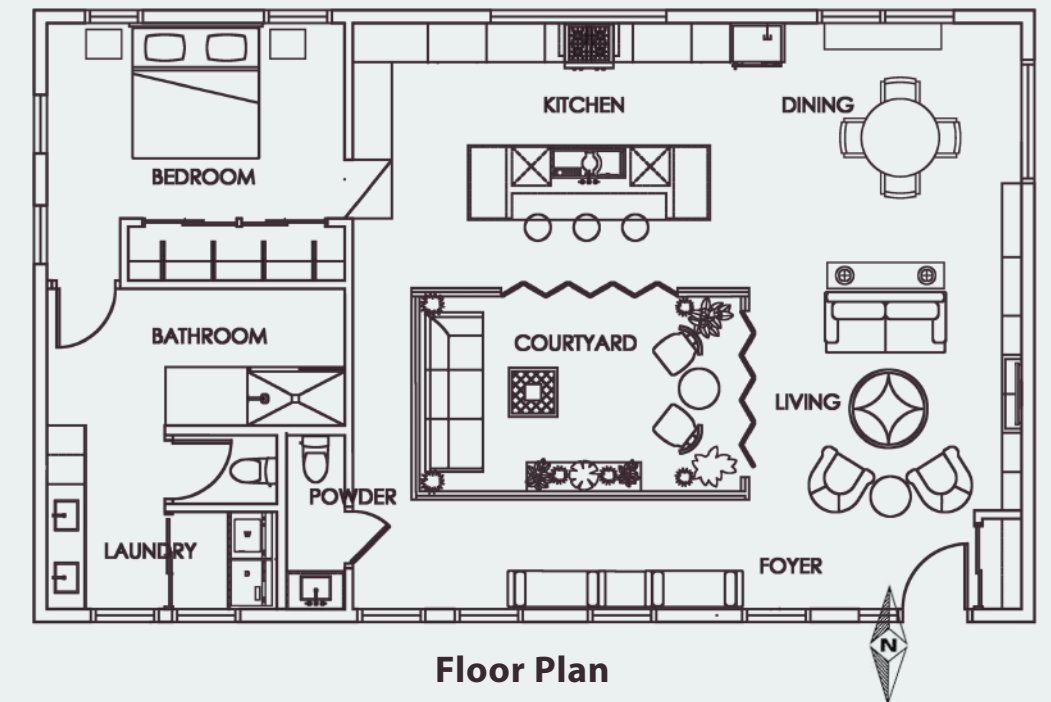

Kitchen

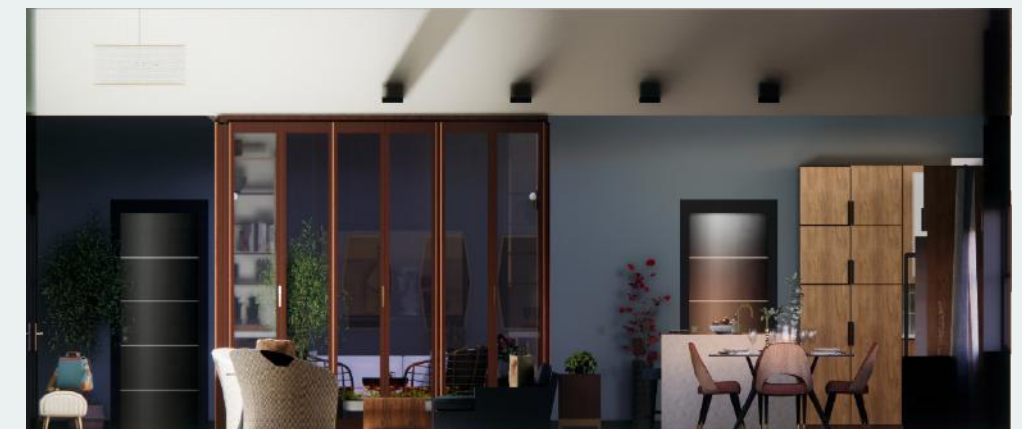

Dining Room

Located in the Pacific Northwest, this unique *courtyard home* was designed to meet the clients' desire for a second home where spaces for relaxing and gathering with friends and family were key features. Their request that *nature* be a focal part of the living areas was accomplished by using folding glass doors to create an outdoor space forming the *heart of the home*.

Judy Walsh
College of DuPage
2024 - 2026

Judy’s Story

Judy Walsh has long been drawn to the art of creating interiors that are as functional and thoughtful as they are beautiful. After a successful career in the legal field, she chose to pursue her passion for residential design bringing with her a strong foundation in precision, organization, and meticulous attention to detail.

Her design approach centers on creating refined, livable spaces that reflect each client’s lifestyle, needs, and personality. With a thoughtful eye for space planning, materials, and finishes, Judy balances timeless aesthetics with everyday functionality while incorporating unexpected, distinctive elements that give each design a memorable sense of individuality. Her interest in sustainability further shapes her work, inspiring intentional selections that contribute to healthier, more enduring interiors.
