

Projects

We believe that hospitality is not merely a service;
It is an artform, a way of life, and the very essence of human connection.
We are driven by a passion for creating extraordinary experiences
and forging meaningful relationships with our customers and partners.
Uncompromising quality, tailored creations, innovative designs, and
social responsibility, are the guiding principles that shape everything we do.

This is our commitment to hospitality projects and to creating memorable
moments that touch the heart. With every interaction, product, and experience,
we aspire to bring joy, warmth, quality, and connection.
We look forward to collaborating with you on your upcoming projects.

Behind the Design

“A perfectly imperfect object — created with heart and by hand — speaks more to me than a perfectly perfect object. I love the connection with its maker.”

TF Design is a creative product design studio and workshop based in San Francisco, California. Our timeless, functional objects are produced by hand from beginning to end and designed to bring joyful serenity to people and their spaces.

Though I design and sculpt every piece, our objects are definitely a joyful collaborative effort. After our master mold maker creates the molds for each design, we then cast the objects, usually in resin, in small batches by color. After that comes the hand sanding, which uncovers each item's unique essential nature. You'll find no heavy machinery in our workshop. It's an entirely human, hands-on process that results in pieces with an organic wabi-sabi quality, one that just can't be achieved by mass production.
