CHAIRMAN'S REMARKS

It gives me great pleasure to introduce the second edition of the Gulf Horseracing Regional Pattern Book. Over the past year, the continued cooperation between our member countries has demonstrated the value of working together to strengthen not only our individual racing jurisdictions, but the region as a whole.

The Gulf Horseracing Council continues to provide an important framework for greater alignment across key areas including race programming, integrity, horse movement, veterinary practices and rule harmonisation. Through the work of the Council and its Technical Committees, we are building stronger connections between our jurisdictions and identifying practical opportunities to support the continued development of racing across the Gulf.

The Regional Pattern Book is an important part of that work. By bringing together the region's leading Pattern and Listed races in a single reference, we provide greater clarity to horsemen, encourage participation across borders and strengthen the international profile of our racing programmes. Its second edition also reflects the continued development of the racing calendar across the region and our shared ambition to raise standards collectively.

The progress made since the Council was established has reinforced the genuine sense of partnership between our member countries. Each jurisdiction has its own identity, strengths and ambitions, but there is a shared commitment to supporting one another and to ensuring that Gulf racing continues to develop and strengthen its position internationally.

I would like to thank my fellow Council members, our Technical Committees and all those who have contributed to this second edition and to the Council's work over the past year.

H.E Mohammad Saeed Al Shehhi
Chairman, Gulf Horseracing Council
Vice Chair, Asian Racing Federation
General Manager & Board Member, Emirates Racing Authority

INTRODUCTION

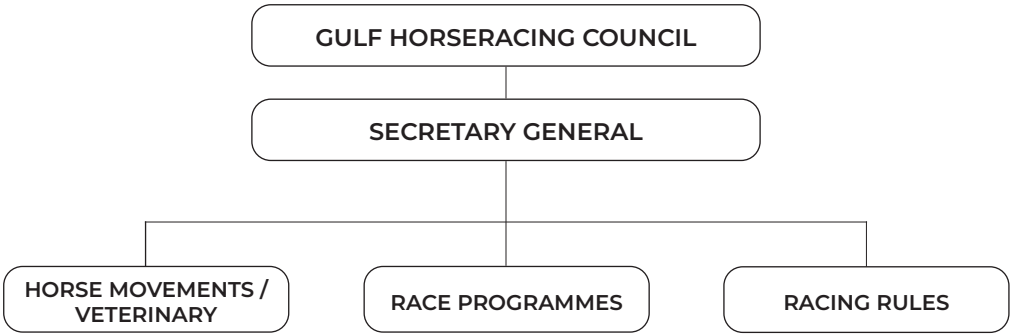

The Gulf Horseracing Council (GHC) Regional Pattern Book 2026/27 is a collaborative publication developed under the authority of the Gulf Horseracing Council, bringing together the racing jurisdictions of the Kingdom of Bahrain, Oman, Qatar, the Kingdom of Saudi Arabia and the United Arab Emirates, with Kuwait participating as an observer.

Now in its second edition, the Pattern Book provides a consolidated schedule of the region's internationally recognised Pattern and Listed races for both Thoroughbreds and Purebred Arabians. It serves as a reference tool for stakeholders across the region and internationally, while supporting greater coordination, cross-border participation and the continued development of Gulf racing.

Since the establishment of the Council in Riyadh in February 2025, member jurisdictions have continued to work together across key areas of regional development. These include regulatory alignment, integrity and veterinary standards, international horse movement, coordinated race programming and long-term sustainability. The Council's three Technical Committees continue to lead these specialised workstreams and report on progress and proposals for further cooperation.

This second edition reflects the progress made through that work across the region over the past year. The Pattern Book will continue to support a stronger and more integrated regional racing structure, while aligning with the frameworks of the Asian Pattern Committee (APC) and the International Federation of Arabian Horse Racing (IFAHR).

GULF HORSERACING COUNCIL PRIMARY OBJECTIVES

1. Foster goodwill and mutual understanding through structured discussion and the staging of racing events in the Gulf region.

2. Promote horseracing and breeding, with a focus on integrity and equine and human welfare, as well as the prestige of the sport in the region. Measures considered should follow all existing laws, rules and regulations.

3. Encourage and develop mutually beneficial objectives and strategies between racing organisations in the GCC region without discrimination to aid the development of horseracing.

4. Exchange ideas and information on matters connected with horseracing within the GCC region.

5. Further enhance the appeal of the regional racing product from a wider international perspective, focusing on a worldwide view where appropriate.

GULF HORSERACING COUNCIL TECHNICAL COMMITTEES

- Horse Movements & Veterinary Technical Committee
- Race Programmes Technical Committee
- Racing Rules Technical Committee

To support the work of the Gulf Horseracing Council, three Technical Committees have been established. Each committee has a clearly defined remit, addressing the strategic priorities identified at the Council's inaugural meeting in Riyadh. These committees are responsible for proposing solutions, enhancing alignment, and supporting the long-term growth and professionalisation of racing across the region.

Committees are composed of up to three representatives per country and report to the Council through their designated Chairs. The General Secretary provides coordination support, and all workstreams are aligned with the Council's broader goals.

HORSE MOVEMENTS & VETERINARY COMMITTEE
Chair: David Craig (United Arab Emirates)
Vice Chair: Dr Francesca Compostella (Kingdom of Saudi Arabia)
Objectives:

- Address any barriers to the free movement of horses across or into the region.
- Consider any related health status or health certificate issues.
- Standardise where possible the quarantine requirements for each member nation.
- Create the required cooperation and sharing of information related to the work carried out by regulatory racing veterinarians. Standardise the regional outlook where possible while also aligning with international best practice.
- Act upon requests or instructions from the main Coordinating Council as appropriate.
- Advise the Racing Rules Technical Committee on doping, medication and horse welfare matters as required.
- Consider any wider veterinary or welfare matters in line with emerging global trends.

RACE PROGRAMMES COMMITTEE
Chair: Edward Veale (Kingdom of Bahrain)
Vice Chair: Stephen Hindle (United Arab Emirates)
Objectives:

- Develop general cooperation regarding race programming across the GCC.
- Specifically examine the timing of key races in each country to maximise participation, quality and impact.
- Draft and implement roadmap to achieving a Pattern Book within Asian Pattern Committee guidelines (TB).
- Progress the Purebred Arabian Pattern in line with IFAHR objectives.
- Consider any racing related administrative barriers such as timelines for publishing race programmes and entry/declaration procedures etc.
- Act upon requests or instructions from the main Coordinating Council as appropriate.

RACING RULES COMMITTEE
Chair: Sam Shinsky (United Arab Emirates)
Vice Chair: Philip Dingwall (Qatar)
Objectives:

- Examine opportunities to align racing rules where possible across member countries.
- Consider any cooperation related to race day stewarding to enhance regional consistency and effectiveness.
- Act upon requests or instructions from the main Coordinating Council as appropriate.
- Receive recommendations from the Horse Movements & Veterinary Technical Committee where relevant.

APC PATTERN PARAMETERS

The Asian Pattern Committee (APC), operating under the support of the Asian Racing Federation, sets the benchmark for the recognition and regulation of Pattern races within the region. Its role is to ensure that Group and Listed races meet clear, consistent standards of quality, competitiveness, and international credibility.

The Race Programmes Technical Committee is committed to aligning with the APC's framework and adopting its rating-based approach to classification.

KEY APC GUIDELINES:

- Pattern Race Ratings: This is the average of the Annual Race Ratings achieved by a race over a three year period. The Annual Race Rating is the average of the official ratings of the first four finishers, as agreed by the Worlds Best Racehorse Rankings Executive Committee and/or the Asian Racing Federation Handicappers Committee.
- Race Continuity: Only races that have demonstrated consistent quality and are run on a regular annual basis are eligible for inclusion.
- Promotion and Demotion: Races may be upgraded or downgraded based on performance against the rating criteria, as reviewed annually by the APC.
- Transparency: All races under consideration for APC recognition must publish full conditions, ratings data, and results in a consistent format.

The Pattern Book reflects these principles and includes races that either already meet the required benchmarks or are being monitored as potential candidates. A dedicated sub-working group within the Race Programmes Committee has been formed to track race performance data and prepare formal applications for APC review.

As the regional programme continues to develop, the goal is to secure recognition for a core set of races across multiple jurisdictions, positioning the region more prominently within the wider Asian and global racing calendar.
