SIF JAKOBS DIAMOND COLLECTION

SHINE BRIGHT WITH DIAMONDS

Sif Jakobs believes everyone deserves to shine. The Diamond Collection celebrates this belief with lab-grown diamonds that are as captivating as they are responsibly created, a modern expression of elegance and integrity.

Each piece is crafted in 14k yellow and white gold and set with beautiful lab-grown diamonds, radiating timeless brilliance and contemporary sophistication.

Produced in collaboration with an RJC-certified partner, every creation embodies respect for the environment, ethical craftsmanship, and lasting quality.

Sif Jakobs Diamonds - Where beauty meets responsibility, and every facet reflects a story of conscious luxury.

*"For a long time, it has been a dream of mine to create a diamond collection.
I've always wanted to offer diamonds that sparkle beautifully and
are created with care for the world around us. Now, with our first-ever
Diamond Collection, that dream has come true!"*

*We've created unique collections, from timeless classics to elegant statement pieces,
perfect for those special moments. Each piece is designed to celebrate the elegance
and individuality of every woman, using ethically sourced lab-grown diamonds.
I hope you love these collections as much as we do and that they
bring a touch of sparkle to your everyday life."*

A handwritten signature in black ink, appearing to read 'Sif Jakobs', with a stylized, flowing script.

Lab-Grown Diamonds

LAB-GROWN DIAMONDS

Lab-grown diamonds are 100% real diamonds, created in controlled environments and share the same durability and brilliance as natural diamonds.

They are optically, chemically and physically identical to mined diamonds but are created in a lab. Using advanced technology, we replicate the natural process of diamond formation, bringing you diamonds that are just as brilliant and beautiful, only more sustainable.

CRAFTED WITH PRECISION

Each piece in the Diamond Collection is made from 14k yellow or 14k white gold with a polished surface, hand-set with round brilliant-cut and marquise-cut lab-grown diamonds.

Our lab-grown diamonds are TW G-H colour and VS clarity, offering a stunning sparkle that catches the light beautifully and enhances your natural beauty. Top Wesselton is a term used for the colour grading of near-colourless diamonds, specifically in the G-H range.

G-H colour means they are close to colourless, allowing for maximum brilliance. VS clarity indicates minimal/no imperfections visible to the naked eye, ensuring the diamond looks clear and radiant. Each diamond is cut and polished to ensure maximum brilliance.

SUSTAINABILITY MEETS ELEGANCE

Our lab-grown diamonds are created using renewable energy, reducing their carbon footprint.

This is luxury you can feel good about, beauty and brilliance without compromise.

Lab-grown diamonds have a much smaller environmental footprint, requiring less energy and water than mining, and are often considered a more ethical option due to their conflict-free nature.

SPECIAL ORDERS

A selection of our diamond pieces is available exclusively by special order. Each design is crafted especially for you and is not held in stock. Please allow approximately 4 weeks for delivery.

Shine Bright with Diamonds

Lab-Grown Diamonds

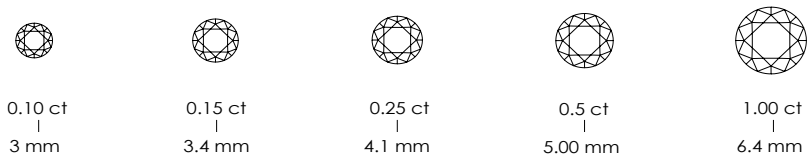

HELD TO THE HIGHEST STANDARDS: THE 4Cs

Like all fine diamonds, our lab-grown diamonds are evaluated by the 4Cs: cut, clarity, colour, and carat. The 4Cs are the key factors that determine the quality and value of a diamond:

Our factory has obtained the prestigious certificate from the Responsible Jewellery Council, assuring you that each piece is created with care for both the environment and the skilled craftsmen who craft them.

CARAT

Measures the weight of a diamond.

COLOUR

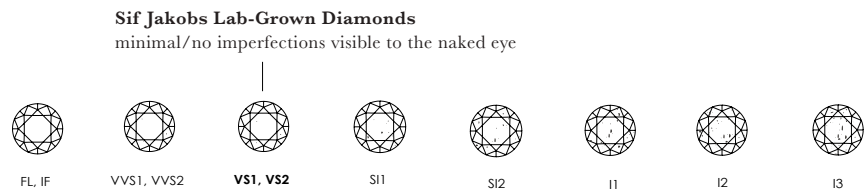

Evaluates the presence of colour in a diamond.
The scale ranges from D (colourless) to Z (light yellow or brown).
All our diamonds are near to colourless, rated G-H colour.

	Colour	Colour Definition	Grade
Sif Jakobs Lab-Grown Diamonds Near colourless to the naked eye		Colourless	D, E, F
		Near Colourless	G, H, I, J
		Faint Colour	K, L, M
		Very Light Colour	N, O, P, Q, R
		Light Colour	S, T, U, V, W, X, Y, Z

GIA Colour Grading Scale

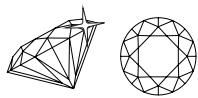

CLARITY

Diamond clarity refers to the presence of inclusions or blemishes in a diamond. Clarity is graded from flawless (no imperfections) to included (visible imperfections). Sif Jakobs Diamonds are VS quality.

CUT

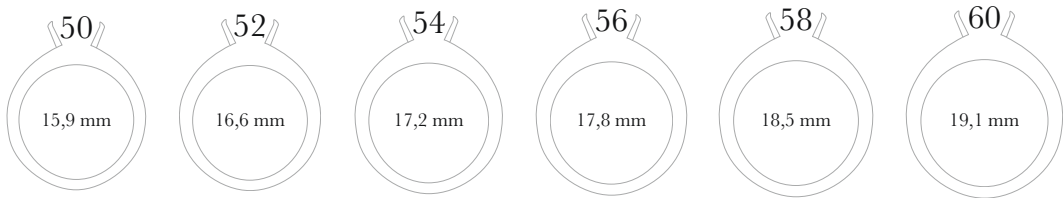

Refers to how well a diamond has been shaped and faceted.
A good cut enhances the diamond's sparkle and brilliance.

Find Your size

The Ring Sizes - Diameter Ø

We offer rings in sizes 50, 52, 54, 56, 58, 60

Inner diameter MM	Inner diameter INCHES	SI / EU	UK / AU	US / CA	IT / ES
16 mm	0,63	50	J½ – K	5	10
16,6 mm	0,65	52	L – L½	6	12
17,2 mm	0,68	54	M½ – N	7	14
17,8 mm	0,70	56	O – P	7½	16
18,5 mm	0,73	58	P½ – Q½	8½	18
19,1 mm	0,75	60	R – S	9	20

Every Diamond Is Unique, So Are You!

Ring Size

Finding the right ring size is important, especially if the ring is a gift or for a special occasion. Once you've chosen your favourite design, we'll help you find the perfect fit.

Ring Size Guide

Ring sizes differ internationally. At Sif Jakobs Jewellery, our sizes are based on the inner circumference of the ring, ranging from EU 50 (16 mm) to EU 60 (19,1 mm). Use our chart to easily find the matching UK, US, or IT/ES size.

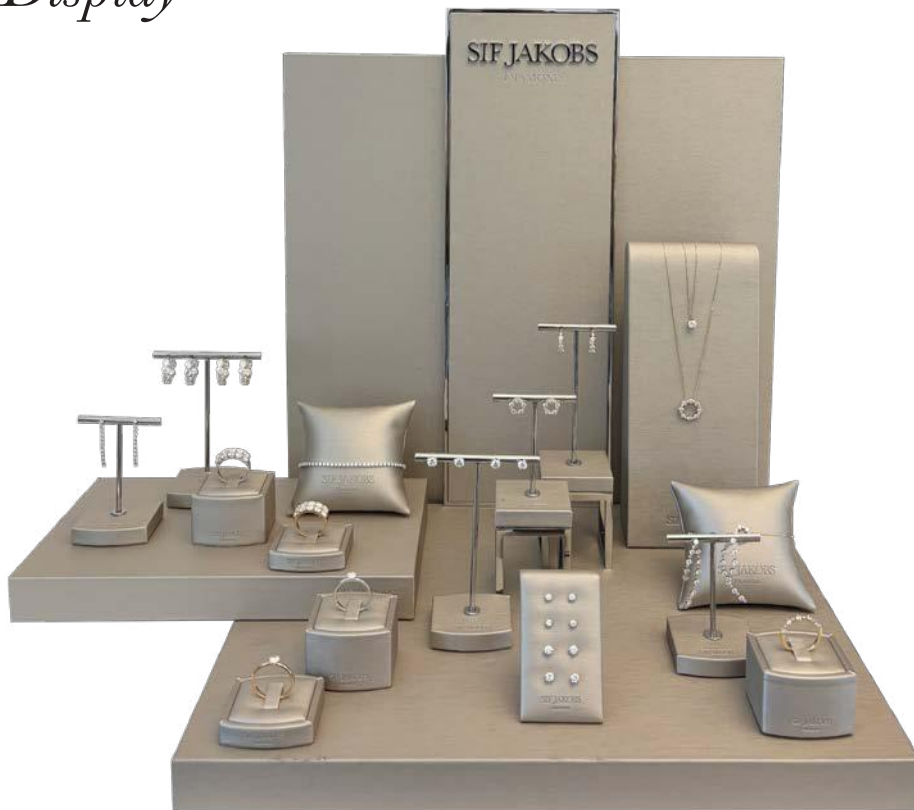

Our tip: If you're between two sizes, we recommend choosing the larger one for a more comfortable fit.

Adjustable Fit – Necklace and Bracelets

Many of our necklaces and bracelets are Adjustable for a perfect fit. With the sliding ball design, you can easily adjust the length up to 45 cm on necklaces and 18 cm on bracelets, making them comfortable and versatile for everyday wear.
