PROJECT STAGES

Each project can be unique and comes with it's own timeline. But here are the typical phases throughout the design process.

PHASE ONE

Interior Design Concept Development

Dreaming, gathering information and generating concepts

- Refining plans and defining spaces
- Working with contractor on specs, expectations
- Gathering information and inspiration
- Meetings to understand aesthetics/vision usisng tools such as vibe trays, lookbooks, samples and sketches
- Schematics

PHASE TWO

Interior Design Implementation

Narrowing the options and making selections

- Plan documents and specifications
- Selections and Finish Schedules
- Budget Development
- F,F & E (Fixtures, Furniture and Equipment)
- Construction administration- includes fabrication coordination, site checks, collabs with contractors, architects, vendors and punchlists

PHASE THREE

Decor and Procurement

Taking concept to reality

- Placing orders from approved proposals
- Order Expediting
- Weekly Reporting
- Scheduling and managing installations
- Styling and F,F&E placement
