Prices and Products

All prices are WHOLESALE and are for Trade only. PRODUCT SPECIFICATIONS AND PRICING MAY CHANGE WITHOUT NOTICE.

Order Changes

Any Order changes made during production must be in writing. This can both delay final completion date and incur addition costs.

Sales Tax

California customers will be charged state tax, unless a valid exemption certificate is on file with all your current company information. Tax I.D. numbers will not be accepted

Payment Methods

All orders are **C.O.D.** unless other arrangements are made at the time of the order. Some orders may require a 50% deposit at the time of order. Sign-Mart accepts Visa, MasterCard, Discover, Company check and cash.

Return Policy

If an item is to be returned call 800-533-9099 and ask for your sales person. You must have an RMA (return material authorization) number before sending any items back to us. RMA numbers are good for 7 days from the date it is issued. Please furnish the invoice number and date.

Item returned that are not due to our error will be subject to a 25% restocking fee.

You must inform us about defects, shortages and exceptions within 5 days or orders will be considered complete. There are no returns after 15 days, unless approved by management. Any changes in the return policy must be approved by management

Technical Support

Our staff of factory trained technicians are ready to assist you please call, email Monday thru Friday 8am - 5pm or Saturday 9am - 12:30pm PST. We will respond as quickly as possible.

Customer Supplied Material

Sign-Mart welcomes work produced or cut on customer supplied materials and will discount our prices accordingly. However, **SIGN-MART WILL NOT ACCEPT RESPONSIBILITY FOR RE-PLACEMENT MATERIALS DUE TO ERRORS OR COMPUTER FAILURE BEYOND OUR CONTROL.** Excess material should always be supplied to ensure complete order.

Shipping

Standard shipping for most orders is **UPS** unless otherwise requested. Shipping and handling rates are based on order weight and UPS zones. We are not responsible for FedEx or other carrier errors. **IF CRATING OR SPECIAL PACKAGING IS REQUIRED FOR PROPER SHIPPING, CUSTOMERS WILL BE CHARGED ACCORDINGLY.** FedEx will not accept cash for a COD order. Payments can be made with a company check or money order

Ground Time-in-Transit Map for UPS

**We aim to be your single, trusted source for
sign supplies, fabrication, service, and expert advice.**

To Our Valued Customers,

Over the last 48 years of service to the sign and graphics industries, Sign-Mart has grown and diversified into one of the most complete graphic / sign production facilities in the country, offering you a truly single source for all your graphics and sign requirements. Our new catalog is the most extensive accumulation of supplies, banner and fabrication information Sign Mart has ever assembled. We hope our "Best Single Source" motto is reflected in our new catalog. Your comments are always welcomed and appreciated.

Today, as one of new owners and CEO, I'm honored to carry forward the legacy built by Gene Sobel and the incredible team that shaped Sign Mart's foundation. Our mission remains clear to empower sign professionals with the highest quality products, cutting-edge technology, and unmatched service. We continue to innovate, expand, and support our customers—because at Sign Mart, your success is our sign of excellence.

*Yours Truly,
JD Savaliya, CEO*

Up to 6 year durability / calendered. Orafol series 651 has become the industry standard for high performance calendered films at only 2.5 mil thick. Flexibility, thermal print compatibility and a choice of over 60 colors are available. This high quality film is a good choice for moderately complex jobs that don't require the extra conformability provided by cast films.

ORAFOL® Series 970RA

Wrapping Cast with Rapid Air NOT FOR PRINTING

4mil Cast Wrapping Film with Rapid Air Technology, Repositionable Solvent Adhesive and an 84lb Silicone coated liner. 970RA offers a fast and reliable way to fully wrap vehicles in standard matte & glossy, glossy matte metallic, and super matte (Black only). This durable film is ideal for long term fleet and motorsport marketing applications and provides a lightweight, economical alternative to paint. Multi-layered, high performance cast PVC film, engineered to the highest technological standards. Designed for car wrapping applications, without the need for top lamination. The RapidAir® technology enables easy and quick application, without air inclusion, especially in large scale applications. The special adhesive enables adhesion onto lacquered surfaces, as well as uneven and corrugated surfaces. For more curved surfaces, or corrugations and rivets, the product should be worked in, cut and applied with an overlap at the edge. The material is easy to remove with the appropriate removal equipment. Durability for Black and White 10 years. Available in 96 colors and 8 Metallic colors – we can Special Order

ORAFOL® Series 975

Carbon Fiber

Transparent solvent based, repositionable adhesive backed 90lb. PE coated silicone liner. 975 Carbon Fiber provides exceptional dimensional stability and conformability over uneven, arched or curved surfaces, as well as flat applications.

This 5mil Cast film offers an easy, fast and reliable way for professional restylers and sign shops to customize standard vehicles with high tech effects. This 975 series has a textured surface specially developed for exterior automotive accent restyling and interior applications for fine detailing. 975 is also recommended for many other Carbon Fiber applications within interior design, craft & hobby and surface effects markets.

*All other colors are available by special order.

- Removable acrylic adhesive
- 3.5mil opaque white PVC vinyl

General Formulations 209 is designed for temporary product markings, temporary point of purchase decals, temporary transportation advertising systems, and tri-vision indoor/outdoor billboard displays. Removable for up to one year from most smooth original equipment finishes with little or no residue remaining on the finish. Completely evaporate inkjet solvents before application. Failure to do so may facilitate solvent penetration resulting in vinyl degradation.

207

Clear Static Cling Vinyl

General Formulations 207 is a 7.0 mil premium clear highly plasticized flexible calendered vinyl film laminated to a 90# Lay flat liner. This film is designed to accept a variety of solvent-based inkjet and UV curable inks common to wide format digital printing systems.

General Formulations may be used for temporary applications to exterior glass, up to 3 months. Temperature, wind and rain may also limit the bond of static cling vinyl to exterior windows. Clear static cling can yellow with prolonged exposure to UV radiation.

The surface must be clean, smooth and as close to room temperature as possible. Cold surfaces reduce the cling of the vinyl. Small decals may be applied dry. Large decals should be applied by wetting the substrate and the decal with glass cleaner. Use a roller to smooth the decal onto the substrate.

27" x 75' | \$ 82.99 | Item #207-27

54" x 75' | \$128.99 | Item #207-54

208

White Static Cling Vinyl

General Formulations 208 is a 7mil. premium white highly plasticized flexible calendered vinyl film laminated to a 90# lay flat liner.

This film is designed to accept a variety of solvent based inkjet and UV curable inks common to wide format digital printing systems.

General Formulations 208 is designed for window decals, temporary product markings, point of purchase displays and protective masking. Thoroughly test this product when applying to painted surfaces

Hazing may develop on the painted surface with extended exposure to static cling vinyl.

Graphi**Tex**
Fabric Wall Graphics **234**

General Formulations 234 is designed for temporary application of decals and graphics to most types of painted interior walls. This includes most flat, semi gloss and gloss paint finishes. Decals may also be applied to sealed wall coverings. The surface must be smooth and clean prior to application.

Not designed for coated, sealed, treated stainless steel, brass or bronze surfaces

7mil premium white matte coated polyester fabric with an acrylic removable pressure sensitive adhesive backed by a 90# Lay flat liner. The combination of fabric and adhesive allows removability of this product from normal wall surfaces. The 90# Lay flat release liner provides excellent stability for processing using standard solvent, eco-solvent, UV curable and latex.

Photo Tex Self Adhesive 6 mil Fabric

This Adhesive Fabric Media is compatible with pigment, water based, solvent, eco-solvent, latex and UV- inks. This fabric gives you vivid, sharp print results with brilliant colors! The Adhesive is Re-movable and Re-usable also Re-positional. Photo Tex patented characteristics separate itself from any other product on the market. Photo Tex will stick to virtually any surface and can be easily removed with 99% no residue. The material does not rip or wrinkle. Results will vary on stucco and eggshell painted surfaces. Not recommended for brick or non-painted cement surfaces or heavy painted spackled wall board. Make sure you allow 30-days on newly painted surfaces for out-gassing. Also, always check the heat setting on UV and UV curable printers as to not over heat the adhesive and alter its tack. Do not oversaturate UV inks and in certain cases you may need to leave up to a 1" boarder.

Magnum Magnetics® is the premier manufacturer of flexible magnetic sheeting products in the USA. Featuring a Matte White or High Gloss finish it offers superior holding power on most metallic surfaces. This flexible magnetic accepts vinyl graphics, screen printing, digital inkjet, offset, hot stamp, litho and more. The 30-mil. thickness is ideal for automotive applications and can easily be cut to size with a utility knife and straight edge.

CAUTION: Magnetic vinyls can cause permanent damage to painted surfaces unless properly maintained as per the enclosed instructions, which includes daily removal. Sign-Mart is not responsible for any vehicle damage

MAGNETIC RECEPTIVE SYSTEM FOR CHANGEABLE GRAPHICS

Our 10 mil magnetic graphic system is comprised of Magnetic Receptive Sheeting and Magnet material with an Adhesive backing. Use the Magnet with adhesive as the base layer and simply put the printed Receptive Sheeting on top; the receptive sheets can be layered up to 4 sheets on top of the Magnet. This provides a multitude of magnetic solutions for graphic displays of all sizes ranging from Menu Boards, Directional Signs, Museum Exhibits, Calendars, Trade Shows, P.O.P. Displays, full-wall mural graphics, signs where the basic information remains the same but dates, prices, specials need to be changed, all with easy installation and changeability. The Receptive Sheeting can be printed with **Solvent, Eco-Solvent, UV, and Latex Ink Systems.**

CREATE CHANGE GRAPHICS WITH OUR PRINTABLE MAGNETIC RECEPTIVE SHEETING IN CONJUNCTION WITH OUR MAGNETIC SHEETING WITH MOUNTING ADHESIVE

IDEAL FOR: MENU BOARDS, WALL GRAPHICS AND RETAIL ENVIRONMENTS.

DOL 1060 Z

- 2.1mil High gloss finish
- Excellent dimensional stability
- Protects image from scratches
- Enhances color and depth of image
- Aids in application of printed graphics
- Superior conformability to irregular substrates
- Dimensionally stable liner for easy converting
- Outstanding durability & outdoor performance
- UV | temperature | humidity | salt spray resistance

Avery DOL 1060 gloss clear cast vinyl is a premium quality, flexible high gloss vinyl film designed as a protective overlamine film for screen and digital printed decals. DOL 1060 offers an exceptional value for applications requiring glossy colors and durability. This product can also be used as an overlamine for floor graphics.

54" x 150' | **\$642.99** | Item #6469

DOL 1360

- High gloss finish (DOL 1360)
- Excellent dimensional stability
- Protects image from scratches
- Enhances color and depth of image
- Aids in application of printed graphics
- Superior conformability to irregular substrates
- Dimensionally stable liner for easy converting
- Outstanding durability & outdoor performance
- UV | temperature | humidity | salt spray resistance

Avery DOL 1360 clear cast vinyl is premium quality, ultra thin and ultra conformable cast vinyl film designed for use as a protective overlamine film for solvent, UV, latex and screen print inks. DOL 1360 offers an exceptional value, while providing excellent conformability, with abrasion resistance and durability. The gloss film now features a synthetic liner that creates a super smooth finish which provides an overall paint like finish of printed graphics.

54" x 150' | **\$563.99** | Item #41027

GENERAL FORMULATIONS 103

Textured Over - Laminating Film

Textured over-laminating film is **designed to protect digital image prints and screen printed images** for exhibit and display graphics. Can be used in most instances where an overlay with non-glare properties is required. This film can be applied to flat, curved or rolled display graphics.

General Formulations 103 Textured Overlaminating Film is a pressure sensitive 5.0 mil velvet / very fine matte polycarbonate film with the optically clear RD-60A, permanent acrylic adhesive with a 1.5 mil polyester film liner. This polycarbonate film offers protection from abrasion, moisture and other environmental exposures. This laminate is applied cold, no heat required.

GENERAL FORMULATIONS 109

Textured Laminate

This scratch resistant laminate is excellent choice for laminating mouse pads, counter mats, floor graphics and displays.

General Formulations 109 is designed for interior use applications. This laminate can be used on floor graphics for up to 6 months under normal use.

38" x 150' | \$381.99 | Item #109-38

54" x 150' | \$423.99 | Item #109-54

GENERAL FORMULATIONS 211

Gloss Clear Permanent Adhesive

Summary: General Formulations 211 is a 6 mil clear flexible polished calendared vinyl film with a slight texture **designed for use as the protective overlay for Traffic Graffix™** decals. The permanent acrylic pressure sensitive adhesive formulated for exceptional clarity.

General Formulations 211 is intended for use as the over-laminating film to produce Traffic Graffix™ floor decals. The adhesive is formulated to adhere to most common printing inks. However, specific formulations must be tested before use. Some ink may contain excessive flow additives that could reduce adhesion of this product. Test before production.

General Formulations 211 will function as a Traffic Graphic™ over-laminate for six month under normal use. Completely evaporate inkjet solvents before application. Failure to do so may facilitate solvent penetration resulting in vinyl degradation.

54" x 1yd.* | \$ 16.99 | Item #211-5401

GENERAL FORMULATIONS 110

EraseMark Pro

Commercial Grade Dry Erase Laminate with Permanent Adhesive

2-mil clear polyester laminate with a high performance hard coated engineered surface. The scratch and abrasion resistant polyester film is coated with a permanent solvent acrylic pressure sensitive adhesive on a smooth paper liner. This film works well with quality dry erase markers and its anti-graffiti properties allows for easy removal of permanent markers and crayons. EraseMark Pro™ 110 has a 5 year interior durability with proper care and cleaning.

For best results, we suggest the following dry erase brand marking pens:

Expo Scents® (chisel point), Expo Bold color® (chisel Point), Expo regular® (chisel point) brand marking pens. It is recommended to use a microfiber cloth to clean the films surface.

54" x 150' | \$514.99 | Item #110-54

DRYTAC®

Pro Tac Scribe

Dry Erase Film

- 2.5mil clear gloss
- Permanent adhesive
- Provides UV protection
- Use low odor dry erase pens
- No liquid for removal of markings
- Always test print sample piece first

54" x 164' | \$365.99 | Item #PSC51164

PermaFlex

Textured Laminate

PermaFlex is a 5 mil. Clear PVC film with a luster textured finish to eliminate glare, and is suitable for indoor and outdoor applications. PermaFlex provides protection from abrasion and moisture and helps slow color fade from UV exposure. The durability of the printed image is dependent on the type of ink and media used.

PermaFlex can also be used as a Floor Graphic laminate. Exceeds industry standards for slip resistance, when tested according to BS7976-2.

The outdoor durability in vertical applications is 3 years and indoor vertical applications is 5 years. Indoor floors durability is 1-3 years depending on traffic.

54" x 75' | \$455.99 | Item #PF365475

54" x 150' | \$848.99 | Item #PF3654150

Nikkalite

ANTI-GRAFFITI F-CAL Over Lamination

Technologically superior, wipe off permanent markers with just a soft cloth. Spray paint is easily removed with any liquid graffiti remover and a soft cloth. Extremely solvent resistant; paint stripper will not eat through the film.

F-Cal has a unique surface that allows most pressure sensitive materials such as stickers and decals to be easily peeled off.

F-Cal is approved by the Department of Transportation and holds the highest designation by Caltrans as a "Premium Protective" compared to a "standard protective".

ANTI-GRAFFITI..

CLEARSHIELD® Classic

**NEW
FORMULATION**

LIQUID LAMINATE COATINGS

ClearShield water-based liquid laminate coatings offer the same protection as film laminates while saving as much as 60% in production costs. UV-protection, chemical resistance, abrasion resistance and flexibility are just some of the benefits of protecting your digital prints with ClearShield liquid laminate. Our coatings are specifically formulated for a variety of inks and applications such as banners, wall coverings, canvas prints and vehicle graphics, also suitable for vertical applications.

ClearShield Classic is formulated for use with most non-water sensitive material.

SILVER SAFETY REFLECTIVE

Reflective Heat Transfer Film

Use SAFETY REFLECTIVE for nighttime visibility and brilliance in the spotlight!

SAFETY REFLECTIVE films consist of very small glass beads embedded in a layer of polyester film to reflect almost all the light that shines on them.

SAFETY REFLECTIVE is available in the Certified Safety Reflective Color, Safety Silver. Safety Silver is a retro - reflective film produces a maximum reflectivity of 675 candela / lux / meter. This product does not have a sticky carrier. Use Safety Silver for garments and other products used by police, firefighters, EMS, postal workers, traffic control, parking, utility, road, construction, security personnel, runners, bicyclists and motorbikers, among others.

Super Glue

Super Strong Adhesive

Super Glue, the first super glue that keeps holding strong, even when the bond takes a hit we call it our Impact-Tough™ Formula. Just hold in place for 30-60 seconds while the formula sets, no clamping necessary.

15 gram | **\$5.99 ea.** | Item #780501

Adhesive

Bonding Adhesive

Gorilla Glue bonds materials other adhesives simply can't - metal, stone, wood, ceramics, foam, glass and much more! And it's still the best glue for anyone who wants the job done right. Plus, it's now available in a faster setting formula and a Precision Glue Pen for pin point applications.

SIERRA

OUTDOOR RETRACTOR

Great for
Outdoor Events

The Sierra Double Sided 33.5" Stand is a robust and versatile outdoor display solution, designed to withstand various weather conditions. Its wind-resistant features and durable construction make it an ideal choice for outdoor marketing, ensuring that your message remains clear and visible even in challenging environments.

Key Features:

- **Removable Water Filler Base:** Provides stability and ensures the stand remains upright in windy conditions.
- **Double-Sided Display:** Maximizes visibility, allowing your message to be seen from multiple directions.
- **Telescopic Pole:** Clip system allows for an adjustable height up to 80 inches, catering to different display requirements.
- **Ground Securing System:** Includes pull-out slots and spikes for anchoring the frame firmly onto the ground.

Including:

- (1) Double-sided outdoor retractable stand
- (1) Water filler base
- (1) Clip telescopic pole
- (2) Clamp top profiles
- (4) Ground spikes
- (1) Canvas bag with foam compartments

GAMMA

Outdoor Banner Display

The Gamma outdoor display banner stand is a heavy duty well constructed stand. Stability and strength are some of the great features. Each unit comes with a hollow base allowing water to be added for more stability. A single or double sided banner stand is available. An excellent option for outdoor use with banner materials, use #2 grommets in the corners.

Banner Size
31" W x 70.5" H

Single Sided | **\$ 92.99 each** | Item #SMODB1

Double Sided | **\$105.99 each** | Item #SMODB2

Banner Bracket System

The rust-free cast aluminum brackets in combination with the 3/4" solid fiberglass arms, allows the Bracket System to withstand most outdoor elements. This Hi-Tech Bracket is built with a 1° angle to keep the banner tight. The fiberglass arms will give in the wind, reducing the wind pressure on the banner. **The arms are permanently EPOXY GLUED into the aluminum brackets. This prevents any wearing of the fiberglass rod.**

Single pole consists of:

- 4 40" stainless steel bands
- 2 Single aluminum brackets
- 2 Fiberglass poles end caps

Very Important!

Subtract 3" from your pole size for max banner width.

For example: a 40" pole can be used for a 36" wide banner.

Double Pole consists of:

- 4 40" stainless steel bands
- 4 Fiberglass poles end caps
- 2 Double aluminum brackets

THE PATRIOT

The Patriot Banner Bracket System consists of:

- 2 Large Pins
- 4 Strap Bands
- 2 Large Zip Ties
- 2 Black Fiberglass Poles
- 2 Cast Aluminum Brackets

The Patriot Banner Bracket is made from Cast Aluminum and the 3/4" Black poles are made from strong and light weight Fiberglass. The specially engineered springs allow the Patriot to adjust and withstand strong winds and the poles are designed to angle away from the banner keeping it nice and taut. This system is great for banners up to 25 square feet.

36" Pole
usable pole length 33 1/2"

Important

To secure the banner to the pole, use zip ties through grommet holes then the gap between the pole and stainless steel band. Failure to secure banner may result in loss or damage. Do not allow banners to come into contact with high wires. It is important that brackets are mounted properly and are tight to insure the life of the banner. Check banners within 4 weeks of installation or first strong wind for needed adjustments.

\$209.99 per set | Item #PBBS

econo bracket system

2 Part Aluminum Bracket System

Stainless Steel Nuts and Bolt

Very Important!

Subtract 2" from your pole size for max banner width.

LOOSE FIBERGLASS POLES WEAR DOWN AND CAN BREAK... BUT OUR 2 PART SYSTEM PREVENTS CHATTERING

Aluminum Bracket Construction | Mounting Straps are Stainless Steel Hardware for 2 part Bracket System is Stainless Steel Fiberglass Poles Unique two part bracket assembly totally prevents " Pole Chattering "

Each set contains:

- 2 Zip Ties
- 2 Cast Aluminum Brackets
- 4 Stainless Steel Band Straps
- 2 Stainless Steel Nuts and Bolts
- 2 Fiberglass 3/4" Poles with Tip Caps

2 PART SYSTEM PREVENTS POLE CHATTERING

Important!

To secure the banner to the pole, use zip ties (not included) through grommet holes then the gap between the pole and stainless steel band. Failure to secure banner may result in loss or damage. Do not allow banners to come into contact with high wires. It is important that brackets are mounted properly and are tight to insure the life of the banner. Check banners within 4 weeks of installation or first strong wind for needed adjustments.

The **Economy Bracket System** is not only a great price, it's also made with the same high quality materials than that of the more expensive banner systems. The Cast Aluminum bracket is 100% Rust Free! The 3/4" poles are made from strong and light weight Fiberglass. No need to be concerned about a loose connection or wear-n-tear on the pole, our two part system prevents "Pole Chatter".

2" OF POLE LENGTH IS USED FOR BRACKET ASSEMBLY

Single bracket pole set

Elan

scissors

- Teflon coated
 - Non stick edges
- High quality carbon stainless steel for durability and accuracy. Florine non stick coating. Dishwasher safe

Stainless Steel Scissors

\$22.99 each | Item #ES01

Precision applique scissors

The extra-large handle fits up to 3 fingers in one loop to help provide more strength and comfort in the cut. Symmetrical handles also fit both left- and right-handed users. Straight-edge blades easily slide through the fabric and are sharpened to the tip for smaller or appliqué cuts.

5 inch Precision Scissors

\$33.99 each | Item #SCS4

Serrated edge scissors

Designed for consumer and industrial application. These scissors are made from high quality stainless steel. One of the edges is serrated which helps prevent material slippage. The 7" scissor is excellent for cutting multiple layers. Great for corrugate, paper, rubber, leather and foam.

7 inch Serrated Edge Scissors

\$39.99 each | Item #SCS2

RAZZOR

liner cutting tool

- Cuts the liner and not the label
- Makes "cut and peel" liners on any brand
- Cuts only the top sheet of layers of newspaper, Kraft paper and butcher paper

The "RAZZOR" slitting tool is a precision, hand-held device utilizing a standard single edged razor blade. The blade depth adjustment is as simple as using a screw driver which can control the depth of cut to less than a thousandth of an inch. The blade can be mounted on either side of the unit, for either left hand or right hand operation.

\$24.99 ea. | Item #TRLC
2+ \$22.99 ea.

Expandable Pole Slitter

- Cut by pushing or pulling
- Extends from 34" to 55" long

This extremely practical tool allows you to cut media across a table without having to lean or crawl.

\$49.99 ea. | Item # EXPS

Supreme-Pro

Liner Slitter

Made specifically to cut through just the liner side of any pressure sensitive vinyl films. No more risk of cutting through the film side of your vinyl while on its backing paper. Special Teflon coating allows the knife to slide across the adhesive side of the vinyl, gives you a clean and easy cut through the backing.

UltimateVehicle Wrap Knife

\$19.99 ea. | Item # SLSK
2+ 17.99 ea.

Econo Pro

Liner Slitter

- Easy to replace #11 blade
- Liner cutting tool for vehicle wraps
- Slit your material and avoid damaging the paint

Slightly separate the liner from the adhesive vinyl. Insert the spoon shape bottom part of the tool into the separation and push. Once the tool starts moving along and is separating and cutting, rock the tool back so the tip is slightly raised

Vehicle Wrap Tool

\$5.99 each | Item #EPLS

\$5.99 ea. | Item #SGB1

VEHICLE WRAP MAGNET

Positioning wrap during install

Long handle makes it easy to remove after holding vinyl in place during installation. A better option than using masking tape.

\$14.99 ea. | Item #WRMG

3M Tape Primer 94

Use to improve vinyl adhesion where vinyl will be stretched and heated into concave areas. For best results, apply a thin layer of primer 94 over most of the concave area. For convex areas, apply a thin layer at the outer edge of the curve to prevent film edge lifting. Great for use on complex vehicle contours. Work with all brands of vinyl.

Finishing Styles

Street Banners-Style 08

Street or Boulevard banners have pole pockets top and bottom. **An optional two grommets are available to secure the banner to the aluminum bracket with nylon straps or wire. (straps not included)** Due to weather exposure, 16oz. or stronger banner material is highly recommended. Hemming the vertical side is optional but recommended when artwork allows.

Sew extra 3/4" wide nylon webbing inside sleeve

Important
To secure the banner to the pole, use zip ties (not included) through grommet holes then the gap between the pole and stainless steel band. Failure to secure banner may result in loss or damage. Do not allow banners to come into contact with high wires. It is important that brackets are mounted properly and are tight to insure the life of the banner. Check banners within 4 weeks of installation or first strong wind for needed adjustments.

Reinforcing the sleeves with 3/4" nylon webbing is an option (\$0.60 approximate cost per corner) and adds extra strength.

Snap Hooks-Style 09

The only professional method for hanging banners "Over the Street" or between any two unattached structures (poles, buildings, etc.). A steel wire cable must be installed between the structures and tightly secured.

Some city regulations require a cable for the top as well as the bottom of the banner. The metal Snap-Hooks "**SNAP**" over the cable and suspend the banner in the air. Usually 1/4" poly rope is tied to each of the top corners and extends to the side. This prevents the Banner from shifting left or right (see diagram below).

2 Methods for Attaching Snap-Hooks to Banners

- 1 Snap-Hooks attached through #2 or #3 grommets placed in the top hem of banner. 1/4" poly rope should be sewn into the top hem and the grommets are placed below the rope (see photo). This prevents the grommets from possibly ripping out.

Both variations can be repeated for the bottom of the banner, if required. If the bottom is not secured with a wire guide, we recommend sewing 1/4" poly rope through the bottom hem with extra rope to reach the supporting side structure (see diagram). Reinforcing both bottom corners is recommended.

- 2 Snap-Hooks sewn directly to the banner with Heavy-Duty webbing straps (see photo). With the method, webbing should also be sewn into the hem for extra added reinforcement.possibly ripping out.

■ Snap-Hook Banner should be made out of 16oz. Outdoor Material or Stronger

■ Snap-Hooks should be located every 18" to 24" MAXIMUM

Quality **BANNERS**

ALL PRICES PER LINEAR FOOT

Please Read

When determining banner prices: All linear measurements will be rounded up to the nearest foot. [A 3' x 6' 8" banner will be priced at 3' x 7'] When the banner includes **Sleeves**, the price is based upon the total length of the unfolded banner material. That measurement **Will be** rounded up to the nearest foot. All screen printed banner orders are sewn with chain stitch sewing machines.

All banners are fully hemmed (Standard hem 1")

Grommets every 2 1/2' approx. top and bottom (#1 & #2 grommets)

#3 & #4 grommets available at \$.40 each

Min. charge based on 5 running feet

Sewn in 1/4" rope or 1" webbing-add \$.30 per linear ft. 3/8" rope \$.35 per linear ft.

Sewn in "D" rings add \$2.50 for each ring

Sewn in clips add \$2.50 for each clip

Pole pockets add \$.20 for each running foot

Clear pockets add \$1.00 per sq./ft. plus labor
Please call for a quote

Reinforced corners \$2.50 ea. corner

Quantity Discounts Must be same size and material.

Extra material from a banner order-hemmed only at \$.75 per linear ft. & with hem and grommets \$.75 per linear ft.

Be sure to **PRETEST** all materials for adhesion of graphics (Paint, Ink, or Vinyl before proceeding

FeatherWind Banner

Designed to gain the immediate attention of those passing by. This durable banner can withstand the types of outdoor extremes that other forms of signage fall prey to.

TEARDROP wind banners

The Teardrop banner is ideal for events where wind is an issue. The teardrop is incredibly light and comes alive by rotating in the wind. No flapping noise and clearly displays your company's message or logo.

SAIL WIND BANNER

Designed to gain the immediate attention of those passing by. This durable banner can withstand the types of outdoor extremes that other forms of signage fall prey to.

Reel PRO

ReelPRO is an affordable, easy to install, easy to use take-up system which will allow you to take control of your workflow. At the heart of ReelPRO is a proprietary patent pending drive train developed by Supply 55 which provides superior performance and reliability. ReelPRO will immediately start saving you money through improved efficiency when printing longer jobs: banners, vehicle wraps, wallpaper, signs, decals, etc.

- Unattended printing
- Avoid dust and dirt on printed images
- Eliminate waste through improved workflow
- Improve your profitability through improved efficiency
- Stop kinking and scratching prints as they are moved from the printer to your work tables, or as they hit the floor

AVAILABLE THRU SPECIAL ORDER ONLY

Banner Pro

Are you tired of trying to fabricate your banners with cumbersome banner tape but are unwilling to spend \$4,000 and up for the current heat based hemming systems? We are proud to offer the BannerPro banner welding system. The BannerPRO offers numerous capabilities including hemming for grommets, pole pockets and pocket sign fabrication, at a fraction of the cost of other hemming systems. Take control of your jobs in-house with BannerPRO

CE8000 SERIES

FEATURE HIGHLIGHTS

ENGINEERED FOR HIGHER PRODUCTIVITY

The Graphtec CE8000 Series cutting plotter is the perfect solution for those looking to increase production with greater efficiency for **SIGNAGE Graphics** - **PRINT & CUT Graphics** - **Automotive Markets** - **Garment Decoration** and many more....

A NEW TOUCH PANEL with **MECHANICAL KEYS** gives users more flexibility with it's **Blind Touch Operation** enabling the operator to continually keep eyes on media while feeding.

NEW Wireless LAN: (OPTIONAL) wireless connection module which improves flexibility of installation locations.

NEW Tool Holder: Improved design makes it easier to change tools and blade position by sliding the stopper forward and back.

Media Set Assist: Suction fans help to prevent media lift and shift when feeding

Email Notification: Job Completion and Error Notifications can be sent to users by email

Separate Tool Positions for contour and die cutting ensures the longevity of your blades and cutting strip when creating decals and graphics that are effortlessly popped out of sheet and roll media.

Data Link Barcode System allows cutting different jobs with different data sequentially. By reading the Graphtec barcode, the CE8000 automatically detects its linked data from a PC or USB Drive.

The CE8000 Series barcode data management system allows the **Continuous Cutting** of multiple jobs with different data sequentially by detecting the Start Mark of each new job.

Advanced Registration Mark Sensing system delivers precise Print & Cut results using sensors to detect registration marks and perform axis alignment. Efficiency boosting functions improve productivity for Print & Cut applications such as labels and decals.

Expanded Contour Cutting Area expands the Print & Cut area to include objects outside of the registration marks. Production efficiency is enhanced and media waste is reduced.

PRECISION CUTTING SOLUTIONS

FC9000 SERIES

FEATURE HIGHLIGHTS

PERFORMANCE & PRECISION MEETS VALUE

Graphtec **FC9000 Series** is the most advanced, versatile roll fed cutting plotter to date. Revered for its dependable, high-precision cutting capabilities with both printed and unprinted materials, the FC9000 Series is the ultimate finishing solution for the wide format signage, apparel, and automotive industries. A robust feeding system, tool head, and new ARMS sensor further contribute to the FC Series' class leading performance.

With the **USB Offline Operation** function, cutting data saved to USB flash memory can be output directly to the cutting plotter, enabling users to operate the FC9000 cutter without a computer.

Data Link Barcode System allows cutting different jobs with different data sequentially by detecting the Start Mark of each new job. By reading the Graphtec barcode, the FC9000 automatically detects its linked data from a PC or USB Drives. This function is available regardless of printer or RIP software used.

The FC9000 Series barcode data management system allows the **Continuous Cutting** of multiple jobs with different data sequentially by detecting the Start Mark of each new job.

With **Multiple Mark Compensation**, the FC9000 can significantly increase your productivity. Contour cutting is repeated for each copy, cutting production time for Print & Cut applications.

Auto Paneling automatically splits long-length jobs into smaller pages that are cut sequentially to prevent skewing.

Barcode Scanning System

USB Offline Operation

Powerful Cutting Head: 600gf

Intuitive 3.7" LCD Control Panel

ARMS 8.0 NEW & IMPROVED FUNCTIONS

Advanced Registration Mark Sensing system delivers precise Print & Cut results using sensors to detect registration marks and perform axis alignment. Efficiency boosting functions improve productivity for Print & Cut applications such as labels and decals.

Expanded Contour Cutting Area expands the Print & Cut area to include objects outside of the registration marks. Production efficiency is enhanced and media waste is reduced.

Reversed Color Registration Marks With this reversed color output, sufficient contrast is created for contour cutting of preprinted ultra glossy & reflective media.

Expanded Contour Cutting Area

Reversed Color Registration Marks

ARMS
Middle Marks on X & Y-axis

Segment Area Compensation (X-Y) Recognizes middle marks between the registration marks to correct X / Y-axis distortion for greater accuracy when cutting longer length media.

Digital Clam Heat Press

The Siser® Digital Clam heat press is constructed using heavy-duty materials of the highest quality, which means these machines can be ran day in and day out without any concern. The Siser® Digital Clam features a digital readout and controls, which make any heat press task simple and stress-free for both experienced users and complete beginners alike.

- Platinum RTD heat sensor
- Digital time and temperature readouts
- Tubular heating elements eliminate cold spots
- Teflon® coated upper heat platen for added protection

Sign Blanks *Western Red Cedar*

Our Sign Blanks are constructed from No. 1 Grade, kiln dried, vertical grain Western Red Cedar. The weatherability and stability of Western Red Cedar makes it an ideal choice for exterior commercial signs. Each sign blank is meticulously handcrafted to stringent quality control standards. Each blank is finished on all 6 sides, 1 3/4" thick. Our goal is to supply you with the finest substrates available.

FABRICATION SECTION

LASER | ROUTING | FABRIC
ADA / BRAILLE | DIGITAL PRINTING | ENGRAVING
ACRYLIC FABRICATION | DIMENSIONAL LETTERS

LARGE AND GRAND FORMAT PRINTING

Our printing department has the latest technology in Flatbed printing. Our Vuteks print 50 - 4' x 8' sheets an hour, the color is beautiful and brilliant. With outstanding clarity, we are able to print as small as 4 point on any flat substrate up to 1.75 inches thick.

We have two EFI Vutek LX3 pro's with 8 colors plus white; our Flatbed printers also offer roll-to-roll printing up to 10 feet wide. With its powerful LED lights, your project is not only dried instantly, the LED's actually make it a "Green" process.

Direct to steel, customer provided 60" x 60" sheet.

Direct to steel, customer provided 60" x 60" sheet.

48" x 96" sheets of Gator Foam with direct print.

FOR ESTIMATE PLEASE EMAIL : angie@sign-mart.com or karen@sign-mart.com

DIGITAL FABRIC AND VINYL PRINTING

With our wide array of Digital printers not only can we produce your job in either Solvent, Eco-Solvent, Latex or UV inks; we also offer various sizes. Poplin can be printed up to 10' wide, Flag material to 70" wide and Scrim Vinyl up to 16' wide.

Some of our most popular printed products include: Poplin Back Drops and Banners, Trade Show displays in Stretch Fabric, full color Canopy's, Scrim and Mesh Banners. Flags can come in various shapes and sizes such as Teardrop, Feather and Sail Wind.

10ft x 10ft stretch fabric Tube Cube trade show display printed on a Teleios Grande

13oz banner material printed on our 16ft Vutek gs5000r

Poplin fabric banners and table throws on our Teleios Grande direct to print

FOR ESTIMATE PLEASE EMAIL : angie@sign-mart.com or karen@sign-mart.com

DIMENSIONAL LETTERS AND LOGO'S

Dimensional Letters are great for interior and exterior use. We take great pride in having clean edges that can be painted in a variety of colors. Letters are easy to install with or without studs, and an installation pattern can be ordered showing you precisely where to drill your mounting holes. There are so many options available, Here a just a few:

Foam | Wood | PVC Aluminum | Acrylic.

LASER CUTTING DEPT.

When certain projects require precise cutting with unparalleled accuracy, you need our 3500 watt CO2 Laser. We specialize in cutting acrylic and ABS plastic substrates.

The Laser is able to cut out projects ranging from simple shapes and cuts to intricate patterns with sharp details. It has a 4' x 8' bed and can cut substrates of various thicknesses.

Custom Design on 1/4" thick
Clear Acrylic

Custom cut 1/8" Brushed
Gold Rowmark

Custom Cut 1/4" Black Acrylic with
Digital Print

FOR ESTIMATE PLEASE EMAIL sales@sign-mart.com

ROUTING DEPARTMENT — AND — CUSTOM CUTTING

Projects that need dimension are exactly what we have our two Multi Cam CNC Routers and our new addition the 10' x 10' ZUND. One of our Multi Cams has a 5'x10' bed with an Icut, that enables the system to read exactly where it should make the cuts. The other Router has a 7'x12' bed for larger projects. When it comes to diversity no tool can compete. From Carved signs, Cut Out Letters, Decorative Shapes, Form Raised Signs and Intricate Inlays our expert technician is able to turn a flat substrate into a dimensional work of art.

Cut Letters on Ultra Foam with Brushed Aluminum Face. Letters are nested

SiBond first printed on our Flatbed then cut with our Multi Cam with Icut

1/2" Black PVC Letters with Aluminum Face - the pink is a protective liner

FOR ESTIMATE PLEASE EMAIL sales@sign-mart.com

LAMINATING AND MOUNTING DEPT.

In our Laminating & Mounting department your project will receive the perfect finishing touches. With our vast variety of substrates and many types of laminate available, you will have the best material to suit your project needs. Laminating and mounting are done by one of our two 60" Pneumatic (air driven) Laminators or by hand from our experienced and knowledgeable staff.

You can rest assured your project will be produced to a smooth, flat professional finish.

Printed decals having lamination applied for extra UV protection

Printed vinyl graphics applied to foam core with laminator, then easel's attached

Sub-surface vinyl on clear acrylic applied by wet application

FOR ESTIMATE PLEASE EMAIL angie@sign-mart.com or karen@sign-mart.com

Paint *and Finishing* Dept

In our Custom Paint department our master painters are able to create beautiful paint colors in any hue and finish. We use only high quality One Shot Oil Based and Ronan Water Based Paints and are able to match PMS Colors or mix a custom color. From sanding to painting, to finishing and packaging this department follows strict quality assurance guidelines.

Laser cut Acrylic Letters & Logo painted with Oil Based Paint and assembled

Foam numbers Router Cut and then lightly sanded and painted

FOR ESTIMATE PLEASE EMAIL sales@sign-mart.com

FABRICATION DEPT. CUT TO SIZE SUBSTRATES

All Signage projects start with measurements. Fortunately for you this department has the knowledge and equipment to cut substrates to your exact specifications. We have the capacity to do Straight Cuts, Rounded Corners, Customs sizes and Drill Holes. Within the same area we have our Custom Acrylic Fabrication Dept. We can make Acrylic Display Boxes, Brochure Holders, Plaques and much more. And for the perfect finishing touch we can either Flame or Hand Polish the edges.

White Lexan cut with our Panel Saw and remeasured for accuracy

SiBond first printed on our Flatbed then cut to size with our 10' Metal Shear

Custom acrylic displays

FOR ESTIMATE PLEASE EMAIL sales@sign-mart.com

FINISHING DEPT.

The team in our Finishing Dept. is able to measure, cut and sew any size Banner, Flag or Fabric Display. Fabric Trade Show Displays come in many different shapes and sizes, and each display has a unique way of attaching to their frame. Tube frame display covers slip over the frame and are called Pillow Case Covers, they are closed with a Heavy Duty Zipper. Fabric Walls and Pop Up Displays can be attached with either Velcro or SEG. SEG stands for Silicone Edge fabric Graphics. We sew the SEG all around the edge, this makes the install and removal of the fabric very easy. It also gives a flat smooth face, perfect for Light Boxes.

13oz banner material edges sewn for strength with grommets added

Flag fabric sewn into a feather wind flag

Martex printable fabric with SEG sewn in all around the edges

FOR ESTIMATE EMAIL sales@sign-mart.com

VINYL DEPT

We have a huge selection of stock vinyls. We carry Printable, Colored, Reflective, Translucent, Fluorescent, Metalized, Laminates, Sign Gold, Floor / Carpet, Wall, Metallic, Etched and Perforated.

Vinyl is cut with a plotter into Letters, Logos, Shapes and Graphics. After cutting the Vinyl, it is weeded and then Transfer Tape is applied to the Vinyl, that piece is then transferred onto a substrate with a squeegee.
