

COMPUTER TECHNOLOGY

Computer Technology

Computer Technology introduces basic hardware, software, networking and security principles. Complete the Comp TIA A+™ hardware certification test and take courses for the preparation of the Comp TIA Network+™ and Comp TIA Security+™ certification exams.

Courses will provide a blended knowledge of computer networking, hardware/software and a broad understanding of the Linux operating system. On the job work to practice skills acquired from the classroom will be utilized in an internship. Develop skills in the business or personal computing environment.

Recent graduates of the program have been hired as network engineers, computer hardware technicians, information systems help desk and network administrators.

Degree/Certificates

- Associate of Applied Science
