

PORCELAIN AND CERAMIC TILES

SOURCEBYNET

DESIGN DRIVEN FLEXIBLE AND FAST BUILT ON TRUST

At Sourcebynet, we know tiles.
What looks good. What sells. What lasts.

With **25 years of experience**, we design, source and deliver furniture & tiles for some of the world's most loved brands.

We turn ideas into commercially viable products built to meet the **right quality, price and speed-to-market** requirements.

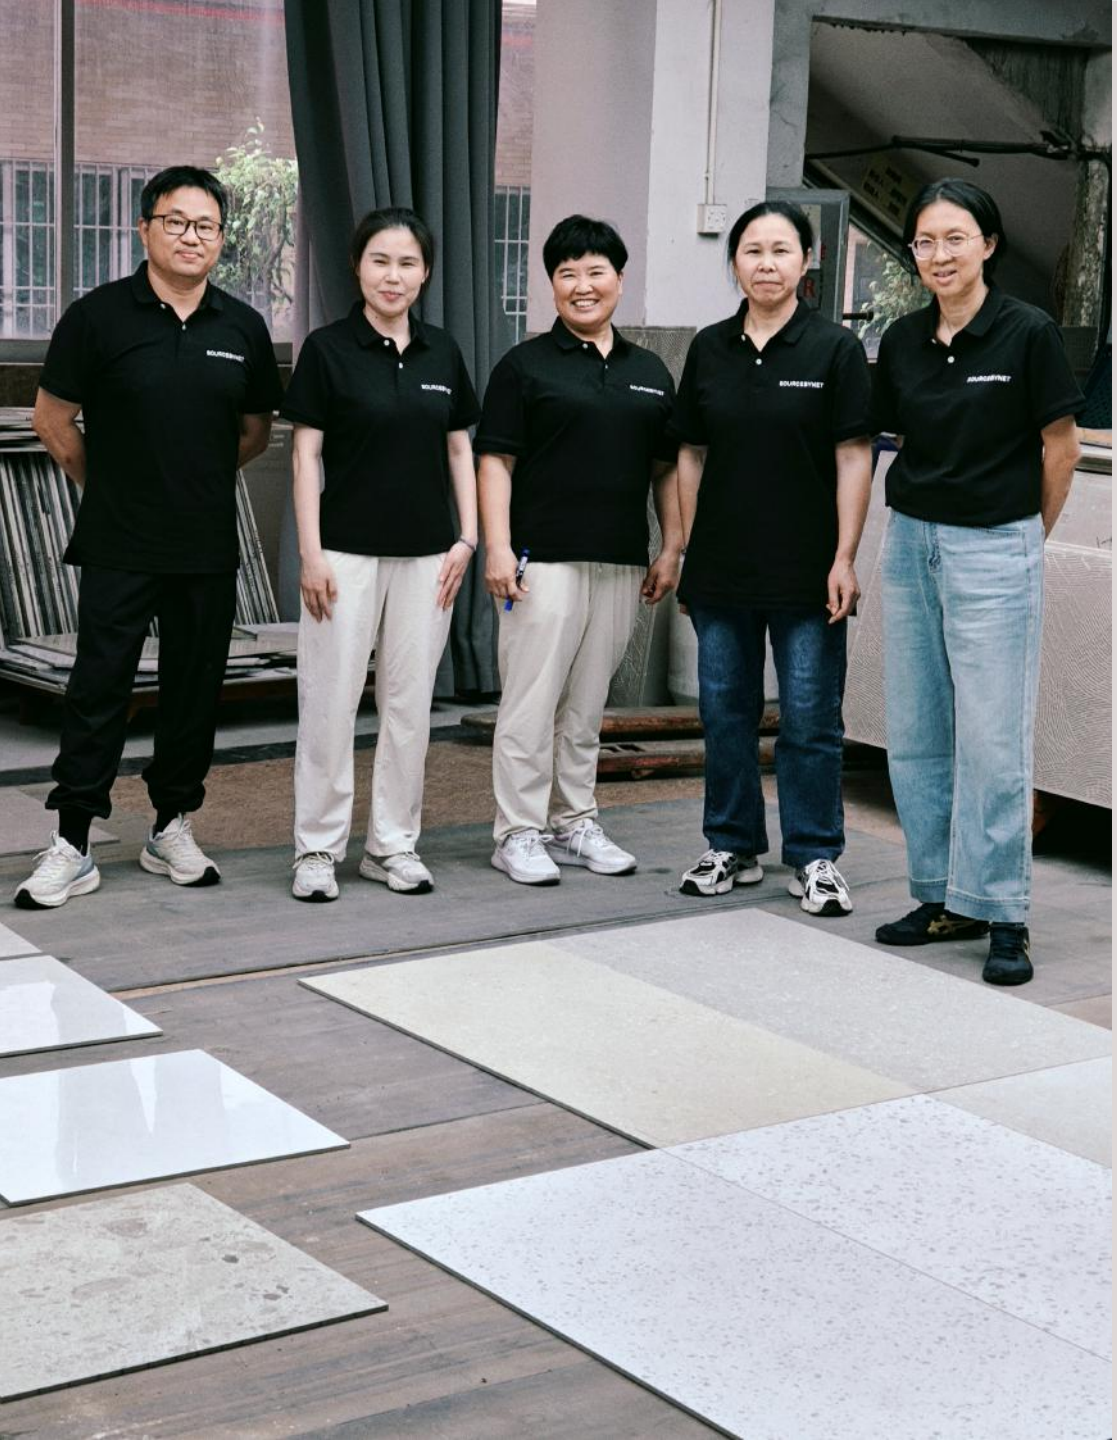

From responsible production to ethical sourcing, **quality and compliance are built into everything we do.**

We bring retail-ready products to the table: rooted in strong design, supported by hands-on production control, and built to perform — from factory floor to store shelf.

We listen. We innovate. We deliver.
And we do it all with a smile – and a spreadsheet.

SOURCEBYNET. YOUR TRUSTED PARTNER.

SOURCEBYNET

TRUE SOURCING **STRENGTH**

With **offices strategically placed across Asia**, each Sourcebynet sourcing location contributes specialized knowledge of materials, product categories and trusted supplier networks.

Based on Xiamen Island, our tile specialist team works closely with suppliers across **China's leading tile production hubs** — including Foshan, Fujian and Zibo.

Their specialized knowledge and extensive experience **ensure responsible sourcing, efficient production, and consistent quality**.

With our quality team based close to production quality is part of daily operations.

For you, that means no surprises: the right standards, the right packaging, and the right product every time.

SOURCEBYNET

DESIGNED FOR **TIMELESS INTERIORS**

The 2026 ceramic landscape is defined less by colour and decoration, and more by **surface, texture and material expression**.

Rather than chasing short-lived trends, the Sourcebynet porcelain and ceramic tile selection focuses on **calm, versatile ranges** that support long-term interior design.

Our collection brings together a **strong core of neutral porcelain tiles** inspired by marble, stone, limestone and travertine, and designed to work seamlessly across floors and walls.

These are complemented by **white ceramic wall tiles with textured and embossed surfaces**, adding depth, tactility and subtle character to contemporary spaces.

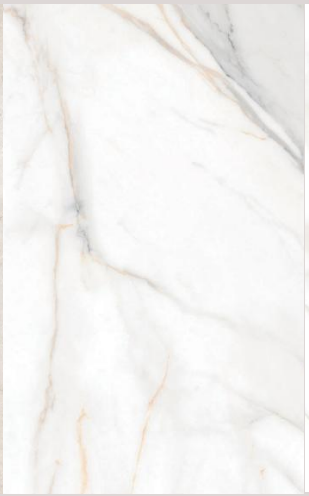

This balance between **clean design and surface detail** reflects current ceramic trends, where touch, light and relief play a central role.

The result is a range that feels modern yet enduring a range that is **suitable for residential, retail and commercial projects** where reliability, consistency and visual longevity matter.
