CEO'S MESSAGE

Dear Guests,

It is a distinct honour to welcome you to the second edition of the London Biotechnology Show, an event that embodies our shared commitment to advancing healthcare, agriculture, environment, and industry through the power of biotechnology.

Today, the world stands at a pivotal moment in science and technology. From the development of life-saving drugs and sustainable agricultural solutions to breakthroughs in environmental preservation and industrial biomanufacturing, the role of biotechnology in transforming our lives and industries has never been more profound. The London Biotechnology Show brings together a global community of scientists, entrepreneurs, investors, and policymakers united by a singular purpose: to accelerate the future of biotechnology across sectors.

This platform is more than just an exhibition—it's a convergence point for collaboration and discovery. Here, we explore cutting-edge research in gene and cell therapies, synthetic biology, biomanufacturing, environmental biotech, and more. It is a space where groundbreaking ideas are translated into tangible solutions that drive progress for society and the planet.

Our vision is clear: to catalyse a future where biotech-driven innovation becomes the cornerstone of healthier societies, sustainable industries, and a thriving environment. By fostering deeper connections between science and industry, we aim to empower the next era of advancements that are not only impactful but also accessible and inclusive.

To our sponsors, partners, exhibitors, speakers, and delegates—thank you. Your commitment and vision continue to push the boundaries of what's possible across the vast landscape of biotechnology.

I invite you to immerse yourself in the experiences, insights, and connections that this event has to offer. Together, let's shape the future of biotechnology and unlock new possibilities for a healthier, more sustainable world.

Thank you, and enjoy the London Biotechnology Show 2025!

Warm regards,

Shariq Abdulhai
CEO & Founder

ABOUT THE EVENT

This two-day exhibition and conference will spotlight the latest breakthroughs across a wide spectrum of biotech sectors, including:

Pharmaceutical
Biotechnology

Digital Health and
Bioinformatics

Medical Devices and
Biomedical Engineering

Clinical Trials, Biotech
Labs and Advanced
Therapeutics

Stem Cell, Regenerative
Medicine and Tissue
Engineering

The London Biotechnology Show stands as a premier international platform dedicated to showcasing cutting-edge advancements and investment opportunities across the global biotech landscape. Taking place at the world-renowned Excel London, the 2nd edition of the show returns bigger and more impactful, gathering the brightest minds, innovative companies, and influential policymakers driving the biotechnology revolution.

Building on the success of its inaugural edition, the London Biotechnology Show 2025 will once again bring together

stakeholders from across the entire biotech value chain—including medtech, healthtech, biopharma, industrial and environmental biotechnology, food and nutrition innovation, research institutions, startups, investors, technology providers, and government bodies. The event provides a high-impact environment for networking, knowledge exchange, product discovery, and cross-border collaboration.

Attendees can look forward to a robust conference programme featuring keynote sessions, panel discussions, and fireside chats led by global thought leaders and biotech pioneers. The exhibition floor will be a dynamic space where leading companies and emerging startups present transformative technologies, services, and research—from advanced therapies to AI-powered drug discovery platforms.

With the UK regaining momentum as a biotech investment hub, the London Biotechnology Show acts as a critical convergence point where science meets business, and ideas turn into innovation.

Haier Biomedical | Lab Solutions That Work as Hard as You Do

Need storage you can trust? Want to simplify compliance? Or ready to scale without losing control?

At Haier Biomedical, we design lab-ready, future-proof solutions for biotech innovators who need more than just reliable equipment—we provide expertise, support, and speed.

- -150°C Cryogenic Freezers & LN₂ Storage Systems (-196°C)
- -86°C Ultra Low Temperature Freezers
- Refrigeration Systems for +4°C to -40°C
- Class II Biological Safety Cabinets
- High-Speed & Benchtop Centrifuges
- IoT-Based Monitoring & Compliance Solutions
- Automation for Biobanking & Cell Culture (in development)
- Smart, Scalable IoT Monitoring
- End-to-End Service & Validation

Whether you're managing fragile samples, planning a biobank, or tackling global health challenges, we can help you do it faster, smarter, and with confidence.

We're UK-based, fast to respond, and ready to support your next leap forward. Speak to us at Stand S1 or contact our team today to get started.

Email: sales@haierbiomedical.co.uk

Haier Biomedical
Intelligent Protection of Life Science

GSK's \$1.15 billion acquisition of IDRx, a Massachusetts-based cancer drug developer, and AstraZeneca's \$1 billion acquisition of Esobiotech, a Belgium-based firm specialising in cell therapy, highlight the UK's value proposition and the commercial strength of its biotech pipeline.

BIOTECH MARKET OUTLOOK

Global Acceleration, UK at the Forefront

The global biotechnology industry is undergoing a powerful surge, projected to surpass \$3 trillion by 2030. This growth is being fuelled by advancements in gene editing, synthetic biology, AI-driven drug development, and a rising demand for personalised medicine and sustainable biotech solutions.

Amidst this global expansion, the UK is reaffirming its position as Europe's biotech powerhouse. In 2024, the UK biotech sector attracted £3.5 billion in investment, marking a 94% year-on-year increase and the strongest performance since 2021. Venture capital led the charge, with North American investors playing a significant role in funding high-potential UK startups and scaleups.

London, as the capital of this movement, continues to be a vital hub for biotech growth. With world-class universities, NHS-linked research centres, biotech incubators, and a vibrant investor network, the city enables startups and established firms alike to scale transformative solutions. Companies specialising in AI-powered therapeutics, gene therapies, and advanced diagnostics are making headlines and attracting global attention.

As the world looks toward science to solve its biggest challenges, the UK—and London in particular—continues to provide the ideas, infrastructure, and investment to drive the future of global biotech forward.

SPONSORS

Discovery Park

discovery-park.co.uk

Discovery Park is a thriving life science community for visionary entrepreneurs and leaders and the ideal environment for businesses to start, scale and succeed.

From state-of-the-art labs and modern offices to unrivalled flexibility and comprehensive support, our team works in partnership with you to provide firm foundations for every stage of your growth.

GOLD SPONSOR

Booth: G2

Thistle Scientific

thistlescientific.co.uk

Thistle Scientific serve customers in the UK and worldwide with expertise in custom-manufactured laboratory equipment and our commitment to sourcing innovative and exclusive products from top global manufacturers. Our mission is to provide the Scientific Researcher with the tools to develop a healthier and sustainable future.

GOLD SPONSOR

Booth: G4

G&L Scientific

gandlscientific.com

Built upon the strong foundation of delivering decades of industry-leading regulatory and quality services, G & L Scientific (G&L) has evolved into a leading Integrated Product Development and Market Access Platform, delivering positive outcomes to patients, through a strategic combination of organic growth, strategic partnership and acquisitions.

GOLD SPONSOR

Booth: G3

Haier Biomedical UK Ltd

haierbiomedical.co.uk

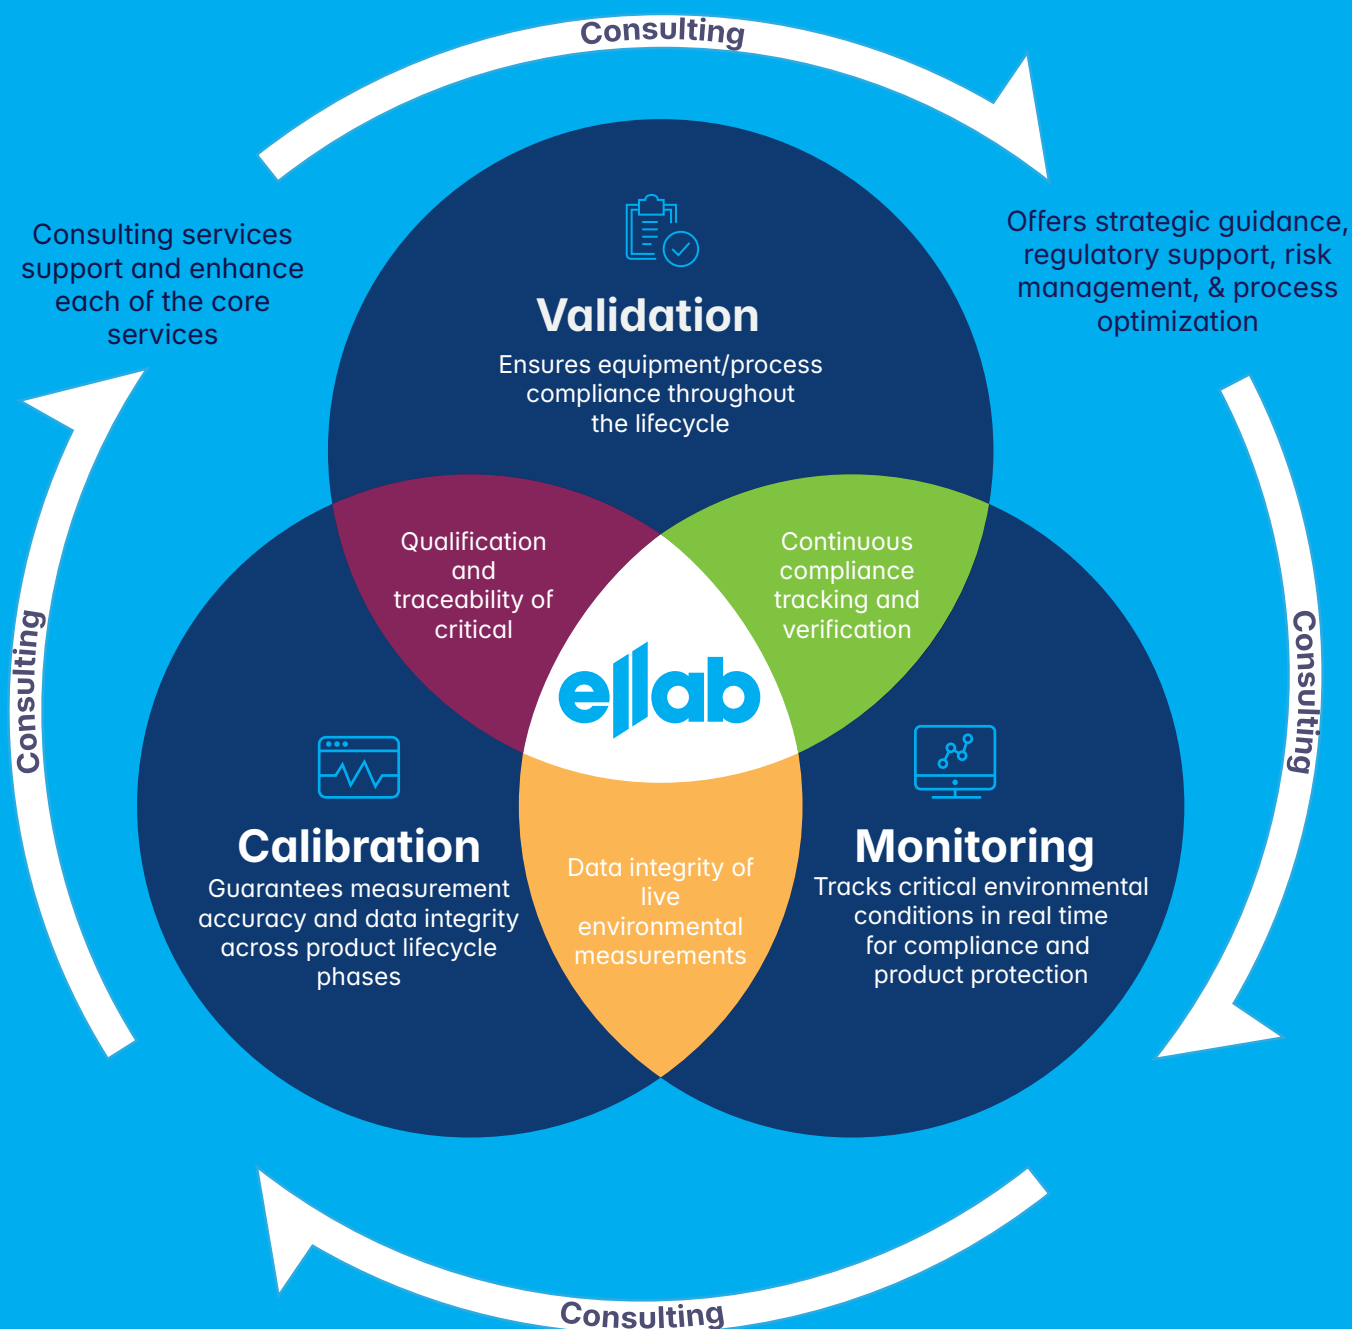

Haier Biomedical stands at the forefront of biotechnological innovation, offering comprehensive solutions that revolutionize the Life Science sector. Our pioneering solutions not only contribute to saving lives but also promote resource efficiency and sustainable practices, reducing waste in the process.

SILVER SPONSOR

Booth: S1

One Compliance Partner. Zero Hassle.

Why deal with several vendors
when one can do it all?

Global expertise with local reach.

+44 (0)151 355 1314
ellab.com

Ellabellab.com

At Ellab, our mission is to reduce the time-to-market and risk of product loss for biotech and pharma companies across the globe. We do so through our reliable validation products and field services, continuous monitoring solutions, GMP consulting, and calibration services.

SILVER SPONSOR**Booth: S2****ACROBiosystems**acrobiosystems.com

ACROBiosystems is a cornerstone enterprise of the pharmaceutical and biotechnology industries. Our mission is to help overcome challenges with innovative tools and solutions from discovery to the clinic. We supply life science tools designed to be used in discovery research and scalable to the clinical phase and beyond.

SILVER SPONSOR**Booth: S7****Mathys & Squire**mathys-squire.com

Mathys & Squire is a full-service IP law firm, established in 1910, handling patent portfolios for startups, SMEs, universities and NGOs, as well as some of the world's largest corporations. Its team of over 75 patent attorneys (all with technical backgrounds) have expertise across biotechnology, chemistry, materials science, electronics, engineering and AI. We are particularly specialised in handling patent and trademark filings and prosecution.

SILVER SPONSOR**Booth: S3****Cool Repair system**coolrepair.co.uk/

We are full HTA Licensed and have been for over the last 10+ years and meet all the criteria required.

Engineers are on call 24/7 – 365 day a year.

Biorepository and biobanking: Secure off-site storage solutions catering for all different material types from, single cryobox to Multiple Fridge & freezers.

BRONZE SPONSOR**Booth: B1**

Patents • Trade marks • Designs • Litigation

At Mathys & Squire, we help you protect and maximise the potential of your intellectual property (IP), supporting the growth and commercial success of your business.

DROP-IN IP CLINIC

At the London Biotechnology Show 2025, we are offering a free “Drop-in” IP Clinic to discuss your patent and trade mark needs. Please visit our stand to speak with one of our experts.

Website:

2025

Merck[merck.com](https://www.merck.com)

Before researchers can make scientific breakthroughs, they must have access to state-of-the-art tools, services, and expertise in order to perform experiments and engineer new products. That's where we come in.

BRONZE SPONSOR**Booth: B5****Homogenising Systems Ltd**[homogenisingsystems.com](https://www.homogenisingsystems.com)

Our STANSTED range of versatile High Pressure Homogenisers offer the ultimate in processing performance. We provide exceptional processing efficiency combined with reproduceable and scalable results, based on our 50+ years experience in high pressure equipment design and manufacture.

BRONZE SPONSOR**Booth: B10****ZAGENO Inc.**go.zageno.com

ZAGENO simplifies lab supply ordering, allowing scientists to focus on accelerating innovation. With over 40 million products from 5,300+ leading brands, ZAGENO is the largest, most user-friendly life sciences marketplace.

BRONZE SPONSOR**Booth: B11****nNano**nnano.ch

nNano AG was founded on the 1st of January 2024 by the Gyger family and offers the ever-growing business with and around the CERTUS FLEX, an enterprise to further improve customer satisfaction. Whereas the technical development and manufacturing stays with the Fritz Gyger AG, nNano AG takes care of all sales and service tasks.

BRONZE SPONSOR**Booth: B9****Genizer LLC**[genizer.com](https://www.genizer.com)

Genizer LLC provides microfluidics mixers, High Pressure Homogenizers, liposome extruders, nano particle analyzers for the pharmaceutical, biochemical, cosmetics, THC/CBD and food industries.

BRONZE SPONSOR**Booth: B2****UPG International LLC**upgintl.com

UPG International is a global CMO of precision medical devices and components. It has facilities in the UK, US, Mexico and China with precision plastics injection moulding, precision metal machining, high-end sheet metal fabrication, chemical and photo etching, ISO Class 7 cleanrooms, electronics design, integration and assembly, logistics capabilities.

Connect

Mathys & Squire

Master Grant Funding

Empowering biotech startups to unlock UK government funding

About Workshop

This practical workshop by Innovate UK Business Connect and Mathys & Squire offers a clear understanding of UK government grants, including eligibility, the application process, and funding opportunities. Learn how to write a compelling grant proposal, align with funding priorities, and avoid common mistakes. Gain expert tips on maximising your funding potential and take part in Q&As with a grant specialist & legal experts to get insider advice on successful applications.

Key Take Aways

1

Understanding UK
Government Grants

2

Writing a Strong
Grant Proposal

3

Maximising Your
Funding Potential

4

Interaction
with the Experts

Mathys & Squire will also provide key legal insights on securing patents, protecting IP, and navigating legal considerations tied to grant-funded projects.

Biogel® Tech

From millions of cells
to your next therapeutic lead

Turn in vitro insights into in vivo success.
Our contract research uncovers new leads and
pinpoints blockbusters in your pipeline.

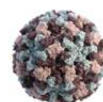

We **discover** promising
target-specific leads.

- High-throughput
- Avidity-based
sorting & isolation
- Target-agnostic

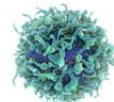

We **validate** your leads to
predict in vivo success.

- Avidity profiles
- Cytotoxicity
- Cytokine release

HOSTED BUYER PROGRAMME

Your Gateway to Curated Business Connections

At the London Biotechnology Show 2025, business isn't left to chance — it's designed with purpose. BioBridge London, the show's official hosted buyer programme, offers a premium networking experience tailored to connect exhibiting companies with pre-qualified buyers and decision-makers from the global biotechnology and life sciences industry.

This high-impact initiative is designed to connect exhibiting companies with a curated pool of qualified buyers, decision-

makers, and procurement professionals from across pharmaceutical firms, research institutions, healthcare providers, and investment bodies. Through personalised, pre-scheduled meetings, BioBridge London ensures that exhibitors engage directly with the people who matter most to their growth goals.

BioBridge London is more than a meeting programme — it's your gateway to strategic partnerships, long-term clients, and transformative growth.

Meet Jarvis, the world's first AI assistant built specifically for clinical trials. It drafts protocols in minutes, flags feasibility risks, aligns with regulatory logic, and generates key documents like Informed Consent Forms and Investigational Brochures — all based on real clinical data.

Designed for **speed**, built for **accuracy**, known for **precision**.

Accelerating clinical trials without compromising scientific integrity.

- **Data-accuracy** — trained on over 500,000 global studies
- **Reduces timelines by 70%**, responsibly.
- **50% Cost saving**.
- **100% faster**, research-friendly

Discover it
firsthand.

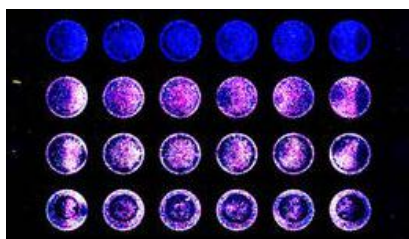

Odyssey M Imager[®]

The most sophisticated imager the industry has ever seen

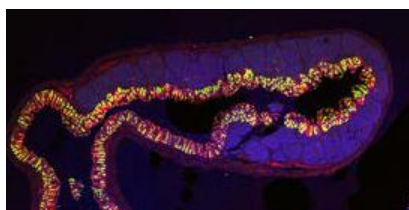

Empower your lab with an extensive array of applications and detection options. Create new research opportunities and follow your discoveries—wherever they lead.

Up to 18 channels across fluorescent, colorimetric, and luminescent spectrums

High-end sCMOS technology for reliable, quantitative protein measurements

True 6-log dynamic range to see the full depth of your data

Industry-leading 5-micron resolution to see detailed tissue sections for triaging
