

2026 PRODUCT GUIDE

**QUALITY
ARCHERY
DESIGNS®**

GOOD HUNTING AND ENJOY GOD'S CREATION

MADE IN THE USA

For more than thirty years, Quality Archery Designs® has been proudly American-made, with every product engineered and manufactured in Madison Heights, Virginia. QAD® products are built by hardworking Americans who take pride in delivering high-quality, precision-engineered gear for hunters and archers. Our commitment to U.S. manufacturing goes hand in hand with our dedication to serving customers directly from our Virginia headquarters.

ULTRAREST®

FEATURES

ULTRAREST® arrow rests are 100% designed and manufactured in the good ol' USA. Our arrow rests include a combination of innovative features you will not find in any other rest. Choose our cutting edge Integrate ULTRAREST® to pair with your new bow outfitted with the Integrate Mounting System®, or our Berger mount ULTRAREST® for your old faithful bow that you just can't part with. Either way, you can be confident each rest is held to precise tolerance specifications and put through strict quality control before leaving our facility, ensuring rock-solid reliability in the field or on the range.

BERGER MOUNTED RESTS

TECHNOLOGY

MX2

R2

HDX

LD

HUNTER

AUTO LEVEL

The rest perfectly levels to the riser on three axes, ensuring it will never rotate.

MICRO-CLICK

For each click, the rest will adjust .0019 of an inch.

TOTAL CONTAINMENT

When you're at full draw and need to let down, the arrow remains fully contained.

VELOCITY DROP-AWAY

High-tension spring drops the launcher for clearance at over 400fps.

LOCK DOWN

Drops and locks down with zero bounceback, zero fletching contact.

EZ CLAMP

No serving required; Quick, easy cord adjustment.

ANTI VIBRATION

Cambrake and dampers kill noise & vibrations.

ANTI-BACKLASH

Removes slop from threads. Every click is an adjustment - no guessing!

SAFETY BREAK AWAY

When the launcher is forced down, it will safely break away to prevent damage or injury.

SMARTREST TECHNOLOGY®

EASY LOCK & LOAD

With the convenient thumb lever, quickly load and cock the arrow into the capture position. The arrow is now fully contained.

TOTAL CONTAINMENT

The arrow will never fall off. With our SmartRest Technology, the ULTRAREST® knows to drop away ONLY when fired, not at slow let-down. Even if you have to let down the draw, the arrow remains contained.

AUTO-ROTATE

When the bow is drawn, the launcher auto rotates to 90° and VDT™ is activated. Only when the bow is fired will the launcher drop out of the way.

FLETCHING CLEARANCE

When the launcher falls, LDT® locks the launcher at 0°. This guarantees no bounce back and total fletching clearance for the most accurate shot possible, even at speeds over 400fps.

LEE & TIFFANY KEEPING FAMILY TRADITIONS ALIVE

MX2

THE PREMIUM IMS® REST, the MX2 is designed with a rugged stealthy capture bar and a robust machined 7075 aluminum launcher to withstand your most grueling hunts. Bulletproof yet hushed, thanks to the built-in color customizable launcher dampers, the ULTRAREST® INTEGRATE MX2 is packed with all the innovative technologies archers have come to expect from QAD.

Visit qadinc.com for all our color damper choices to personalize your look.

MSRP: \$299.99-\$309.99

R2

SLEEK. LIGHT. INTEGRATED. The ULTRAREST® Integrate R2 packs all the best features from our popular HDX model in a sleek, lightweight profile that fits the Integrate Mounting System®. The silky-smooth friction feel horizontal and vertical adjustments allow you to tune this rest in record time. American ingenuity and precision engineering are evident in the fit and performance of this rest. Made right here in the USA and backed by our limited lifetime warranty.

MSRP: \$219.99

TOUGH CONDITIONS. ZERO EXCUSES.
DAN STATON TRUSTS QAD.

HDX

QUALITY WITHOUT COMPROMISE. The ULTRAREST® HDX combines innovative features with a track record of unmatched reliability. The versatile design and rock-solid dependability have made this rest the award winning choice of archers for years. The world's leading bow manufacturers utilize our custom designs to tailor this rest to their bows, reducing tuning time and optimizing performance. Visit qadinc.com to see our variety of camo and color finishes.

MSRP: \$174.99 - \$199.99

LD

THE REVOLUTION OF LOCK-DOWN. The ULTRAREST® LD is the rest that started the revolution of Lock-Down Technology™. This patented feature guarantees no bounce back and total fletching clearance. The LD changed the world of drop-away rest designs, especially with high-speed bows. If you don't need all the options of the HDX but want a high-end, long lasting piece of equipment, this is the rest for you.

MSRP: \$139.99

HUNTER

MORE BANG FOR YOUR BUCK. The ULTRAREST® HUNTER is, by far, the highest quality drop-away you will find at the economical price of only \$80. We specifically set out to design a model for those who want a quality drop-away but don't have the budget for our upper models. Even at this price, we didn't compromise on anything. Every part of the HUNTER is made here in our Madison Heights, Virginia facility.

MSRP: \$79.99

"The three things that sold me on the QAD MX2 is that it's fast mounting, easily tunable, and super lightweight."

- **John Dudley, Nock On Archery.**

MADE IN THE USA

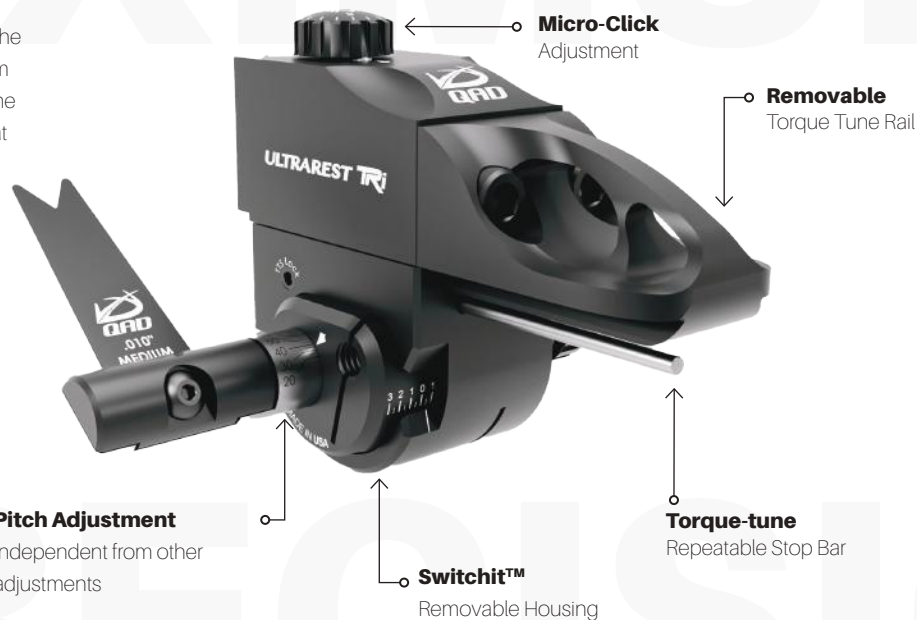

PREMIUM TARGET REST

The **ULTRAREST TRI®** was designed to provide the target archer an extremely robust rest with maximum forgiveness, precision tuning, repeatable settings, the highest level of quality, and the type of accuracy that puts shooters on the podium.

MSRP: \$409.99

COMPATIBLE WITH

TECHNOLOGIES

AUTO LEVEL
Once mounted, the TRI is automatically level.

MICRO-CLICK
For each click, the rest will adjust .0019 of an inch.

REPEATIX
Locating features allows parts to be replaced within .001 of their original position.

DUAL CLAMPING
Two locking clamps that directly lock the rest to the bow riser.

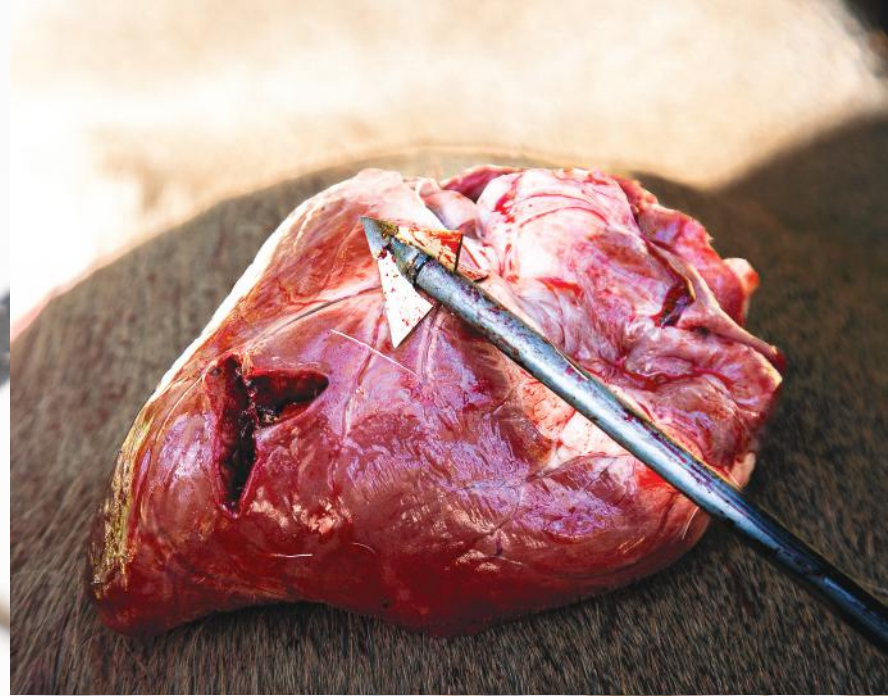

ANTI-ROTATION
Eliminates the possibility of the arrow rest rotating on the riser.

SWITCHIT
Easily switch out rest housings for multiple arrow setups.

TOUGHEST HEADS ON THE MARKET

EXODUS® broadheads are 100% designed and manufactured in the good ol' USA. The revolutionary compact head gives it the strength to bust through the toughest bones. By matching the length of a field point, the EXODUS® achieves accuracy never before experienced from a fixed blade. With razor-sharp, durable blades and a steep cutting angle, the EXODUS® tops the broadhead market in penetration.

TECHNOLOGIES

BLADE OVER SHAFT

The blades sweep back over the arrow shaft creating a super short, compact head. This results in unmatched field-point flight while maintaining extreme penetration and a large cutting diameter.

PRECISION SPIN

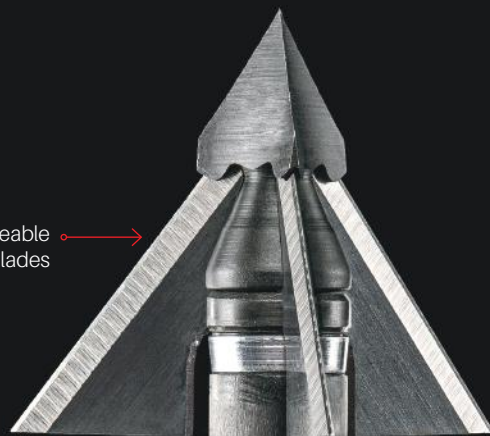

Tight machining tolerances maintain consistent spin and equal weight for repeatable results.

MSRP: \$49.99 (PACK OF 3)
